

South Derbyshire Partnership

Report to the Board

Appendix 1

LSP Infrastructure Group – Possible Key Purposes

- to identify the health, social, economic and environmental infrastructure requirements for South Derbyshire, based on the vision set out in the SCS and to be delivered through the LAA and LDF
- to advise the LSP, District and County Councils of infrastructure requirements and potential funding shortfalls to deliver the local vision
- to identify a programme for infrastructure delivery which will include who is to provide it, when it is to be delivered and the funding sources
- to identify the land and property assets available in the public sector's ownership in the area under consideration
- to identify where more efficient use of assets could be promoted
