## **3.0 Detail**

### Introduction

- 3.1 Service Plans are a key part of the Council's performance management framework, acting as an important link between high-level plans and strategies, such as the Corporate Plan and Community Strategy and personal performance objectives established through the Employee Review and Development Scheme.

## Form and Content

- 3.2 The form and content of Service Plans has been reviewed and minor changes have been made for this year's plans. This year's plans has been amended to capture a number of cross-cutting themes for the Council such as Value for Money, outcomes and linking priorities to budgets.
- 3.3 Each Plan now contains sections on:
- Scope and aims of the service.
  - Key achievements from 2007/8 and the Priorities for Action in 2008/9.
  - People and resources – structure of the service and how this is being shaped to deliver on the priorities and the resources available to deliver on these.
  - Performance information and what benchmarking with other councils is telling us about this performance.
  - Future national and local performance indicators with key tasks for the next year April 2008 to March 2009. These include actions resulting from the Corporate Plan and the Community Strategy.
  - Managing risks.
  - Efficiencies through Business Improvement, partnerships and procurement.
  - Consultation that we have undertaken and what's planned and how this will be used to shape delivery of services
- 3.4 The Service Plans reflect the current themes and priorities within the Corporate Plan 2008/11 and Community Strategy 2008/9 and these will be reviewed with new plans being published in 2009.
- 3.5 For this year plans cover a one-year period and these will be reviewed at the end of March 2009 to link in with these documents. Monitoring/progress reports on service plans will be made to Members as part of the quarterly performance monitoring reports.
