Executive Summary

Theme	Headline
Population 	<p>In 2018 the mid-year population for South Derbyshire stood at 104,500. This is an increase of 2,115 people compared to the 2017 mid-year estimate. Since the start of the Plan period in 2011 there has been an increase in the District's population of 9,585 people.</p>
Housing 	<p>The District Council's Housing Target is 742 homes to be built per annum between 2011-2028.</p> <p>In the 2018/19 monitoring period there were 1230 (gross) completions. However once losses in the period are taken into account a total of 1218 homes (net) were built.</p> <p>Since 2011 4,985 homes have been built against a requirement of 5,936.</p> <p>Affordable housing completions for the period 2018/19 were 225. This is an increase on the number recorded in the 2017/18 period when 180 affordable homes were completed. 18.47% of homes completed in the period were affordable.</p> <p>In 2018 median house prices were 6.96 times median (gross) annual workplace earnings. An decrease from 7.45 times earnings in 2017 indicating that homes have become more affordable in the monitoring period¹.</p>

¹ House price to workplace based earing ratios can be found on the following webpage:

<https://www.ons.gov.uk/peoplepopulationandcommunity/housing/datasets/ratioofhousepricetoworkplacebasedearningslowerquartileandmedian>

		<p>There were a total of 33 individuals recorded on the District Council's self-build register at the end of the third base period (31st October 2017 to 30 October 2018). All but one on the self-build register was looking for a single plot, whilst the remaining individual sought one to two plots. 10 Individuals were added to the register during the third base period.</p>
Employment		<p>The total industrial and business land need outside the Derby Urban Area within South Derbyshire between 2011 - 2028 is 47.27ha. At 31 March 2019 the amount of new land developed since 1 March 2011 was 36.04ha, with a further 0.51ha under construction at the time of the survey. A further 70.46ha had planning consent and 18.71ha did not yet have planning consent but was allocated for industrial and business development in the Local Plan Part 1.</p> <p>Net additional loss of floor space delivered in the monitoring period was -25180 sqm. An overall loss was recorded in this period due to demolition of employment units on the land at Hilton Depot in Hilton, which is a Local Plan Part 1 housing allocation. In addition part of an old factory was demolished to allow open storage on an employment site in Swadlincote.</p>
Retail		<p>10 retail, office and leisure units were recorded as vacant in Swadlincote town centre during the survey in February 2019. The vacancy rate for the retail, leisure and office uses in the town centre is 5.43% by number of units, or 3.11% if measured as a proportion of floor space.</p> <p>A new local centre at Highfields Farm and retail units at Chellaston Fields (both strategic housing allocations) were completed with the monitoring period. Local centres on the following strategic sites New House Farm, Boulton Moor, Wragley Way or Drakelow Park were not completed within the monitoring period.</p>

Regeneration		<p>The Brownfield Land Register submission for 2018 comprised 19 sites with a total area of 71.27 ha.</p> <p>12% of housing delivered in the monitoring period was on previously developed land, whilst 92.71 % of employment floor space was delivered on previously developed sites.</p>
Infrastructure		<p>No key infrastructure projects have been commenced or delivered in the Monitoring Period.</p> <p>The Local Centre at Highfields Farm and the retail unit at Chellaston Fields were completed within the monitoring period.</p>

Plan Preparation

Plans and Policy Documents

The Local Development Scheme sets out the timetable for the preparation of planning policy documents. The latest version was published in May 2018 (LDS 9) and can be viewed on the Council's website [here](#).

The Part 1 Local Plan (LP1)

This document, adopted by the Council on the 13 June 2016, forms the strategic part of the Council's Local Plan. It contains allocations for strategic housing and employment sites as well as a range of thematic spatial policies in respect of housing, employment, sustainable development, the built and natural environment and infrastructure. The Plan is available to view on the Council's website [here](#).

The Part 2 Local Plan (LP2)

This document was adopted by the Council on 2 November 2017 in accordance with LDS8. It sets out the location of 14 non-strategic housing sites allocated within the District; defines settlement boundaries and sets out a range of thematic policies on topics such as heritage, retail, local green spaces, and development in the countryside. It is available to view on the Council's website [here](#).

Supplementary Planning Documents and Development Plan Documents

Design Guide and Affordable Housing Supplementary Planning Documents (SPDs) were adopted in November 2017. The Design Guide SPD incorporates car parking and open space and facilities' standards, previously proposed as separate documents.

Looking ahead, the Local Development Scheme (LDS9, May 2018) indicates that the Council will produce:

- A Local Green Spaces Development Plan Document (DPD): Options Consultations took place in October to November 2018 and was submitted to the Secretary of State on 24th May 2019, with the Examination in Public taking place on 12th September 2019. The main modifications consultation is likely to commence in early 2020.
- A Gypsy and Traveller Site Allocations DPD: Options consultation is scheduled to take place during Summer 2019, with Submission to the Secretary of State in early 2020 and adoption by the Council in late 2020. Between the 28th August and 2nd October 2019 the District Council consulted upon the Sustainability Appraisal Scoping Report for the Gypsy and Traveller Site Allocations DPD. An up to date assessment of need is to be undertaken prior to the commencement of the Gypsy and Traveller Site Allocations DPD.

- An SPD on Greenways: No firm dates have been set for consultation or adoption. The District Council continues to liaise with Derbyshire County Council with a view to progressing the document.

Neighbourhood Development Plans

Neighbourhood Development Plans (NDPs) currently in production are as follows:

- **Repton NDP:** Following the submission of the Plan to the Council in January 2019 and the receipt of the Examiner's report in July 2019, The Parish of Repton Neighbourhood Development Plan 2016 – 2028 went to referendum on 14 November 2019. The referendum posed the question: *'Do you want South Derbyshire District Council to use the Parish of Repton Neighbourhood Development Plan to help it decide planning applications in the Repton Neighbourhood Area?'*. The outcome of the referendum was a 'yes' vote, with 565 out of 586 persons that voted, voting in favour of the Plan'. More information is available on the Repton Neighbourhood Plan website at http://www.reptonvillage.org.uk/n_p/np_home.html
- **Melbourne NDP:** Public consultation in accordance with Regulation 14 of the Neighbourhood Planning Regulations 2012 was undertaken on the Draft Melbourne Neighbourhood Development Plan for six weeks between 20 May 2019 and 2 July 2019. More information is available on the Melbourne Neighbourhood Plan at: <https://www.melbourneparishcouncil.org.uk/>
- **Hilton NDP:** An area comprising the Parishes of Hilton, Marston on Dove and Hoon has been designated as a Neighbourhood Plan Area. Initial consultations and evidence gathering has taken place and work is progressing on a draft Plan in advance of the Regulation 14 consultation. Information on the Plan is held on the Parish Council's website: <https://www.hiltonparishcouncil.org.uk/neighbourhood-plan.html>
- **Willington NDP:** An area comprising the Parish of Willington has been designated as a Neighbourhood Plan Area.

Population

On average the District's population has been increasing by around 1,000 people annually since the start of the Plan period, as indicated in Table 1, below:

Table 1: Mid-year population estimates for South Derbyshire 2011-2018

Year	Population Estimate
2011	94,900
2012	95,900
2013	97,100
2014	98,400
2015	99,300
2016	100,400
2017	102,400
2018	104,500

[https://www.nomisweb.co.uk/reports/lmp/la/1946157140/report.aspx?town=south derbyshire#tabrespop](https://www.nomisweb.co.uk/reports/lmp/la/1946157140/report.aspx?town=south%20derbyshire#tabrespop)

Available population forecasts from the Office of National Statistics (ONS) for the District indicate that the population will continue to grow at a steady rate (of around 1,000 people a year) until 2022 at which point it will begin to slow to around 800 people per annum. However, it is highly likely that growth will be ahead of these projections given the amount of housing committed through the Local Plan which includes a significant amount of housing to meet Derby City's needs. The following table indicates 2014 sub-national population projections for South Derbyshire. It also provides a crude estimate, **for illustration purposes only**, for growth based on housing delivery rates to the end of the Plan period reflecting average household size (in persons). However this estimate could overstate the likely growth given continuing structural changes in the population at large which will continue to place a downward pressure on household sizes in the medium to long-term.

Table 2: Mid-year population Forecasts for South Derbyshire 2019-2028 and illustration of potential population reflecting plan growth targets

Year	Population Forecasts¹	Potential population taking account of housing commitments²
2019	103,100	105,191
2020	104,100	106,870
2021	105,000	108,549
2022	105,900	110,228
2023	106,700	111,907
2024	107,500	113,586
2025	108,300	115,265
2026	109,000	116,944
2027	109,700	118,623
2028	110,400	120,302

¹Population forecasts based on ONS 2016-based Subnational population projections for South Derbyshire [available here](#)

²Potential population based on average annualised housing requirement of 9,722 (for which sites are committed through the Local Plan) adjusted to reflect average household occupancy based on housing delivery between 2011-16.

Housing

In accordance with the Town and Country Planning (Local Planning) (England) Regulations 2012, Councils are required to report on the housing delivery that has taken place during the past monitoring year, which in this case, is the period from 1 April 2018 until the 31 March 2019.

Residential land supply is monitored annually in South Derbyshire with full site surveys around 1 April each year, in accordance with a County-wide protocol. The use of a database linked to GIS enables planning permissions and progress on sites to be tracked on a consistent basis across Derbyshire. Information is also collected on the development of affordable housing by tenure as well as data on house sizes and development densities on wholly completed sites.

Housing Requirement

The agreed and examined housing target from South Derbyshire's Local Plan Examination is a Housing Market Area (HMA) requirement from 2011 to 2028 of 33,388 dwellings of which 12,618 dwellings is the housing requirement for South Derbyshire. This figure consists of the housing need for South Derbyshire which is 9,605 dwellings and also a share of the housing need that Derby is unable to accommodate, 3,013 dwellings. **Based on a requirement of 12,618 the annualised housing requirement for the District is 742 dwellings.**

Housing Supply

The net number of completed dwellings from the start of the Plan period in 2011 can be seen in the Table 3 below.

Table 3: Housing Delivery since the start of the Plan period

Monitoring Period	2011/12	2012/13	2013/14	2014/15	2015/16	2016/17	2017/18	2018/19
Number	378	274	385	420	569	820	921	1218
On previously developed land (%)	38	32	26	33	12	14	11	12

The delivery figures since the start of the Plan period show an initial reduction in the number of homes delivered in the period 2011-12. This is likely to be as a result of a lack of supply from the then committed sites and economic conditions following the global financial crisis. Housing delivery reached its lowest point in the 2012/13 monitoring period. Numbers have risen every year since, though the 2016/17 monitoring period saw a significant step change in delivery. The reason for this increased number of completions is that the Local Plan Parts 1 and 2 had been adopted, meaning that new housing allocations have been made and opened up for development.

As identified in Table 3 the completions from the previous seven years demonstrate the housing target of 742 has been met only three times since the beginning of the plan period. In total 4,985 homes have been completed within the Plan period up to the 31 March 2019. This indicates a shortfall of 951 homes over the Plan period to date. In order to address this shortfall the Council expects to continue to deliver high levels of growth over the next five years. Details regarding the Council's five-year land supply can be found on our website [here](#).

Completions on Previously Developed (Brownfield) Land

Of the 1218 dwellings (net completions) that were completed within the District in 2018/19, 12% were on previously developed land. As can be seen from Table 3 completions on previously developed land have generally decreased since the start of the Plan period. The National Planning Policy Framework encourages the use of brownfield sites but does not set a national target. The high level of greenfield development in South Derbyshire is a result of the high level of housing growth required and the lack of previously developed land currently available for development. Further information on previously developed land is provided in the section on the Brownfield Land Register.

Local Plan Allocations

The Adopted Part 1 and Part 2 Local Plans include 32 allocations ranging in size from 10 dwellings to 2,239 dwellings. The Local Plan Part 1 includes 18 strategic allocations which will deliver around 12,700 homes (although a number of sites will not be fully built out by the end of the Plan period); whilst the Local Plan Part 2 includes 14 non-strategic allocations which cumulatively will deliver at least 600 dwellings. Many of these allocations benefit from planning consent and are currently under construction.

Remaining Supply

- **Sites with Planning Permission:** Large sites with full or outline planning permission (including those with a Council resolution to approve pending the completion of legal agreements, have remaining capacity for a total of 8494 dwellings.
- **Windfall estimates:** An allowance has been included within the Local Plan Part 1 of 23 dwellings per year.
- **Small Sites:** There are 305 dwellings with planning permission on small sites.
- **Losses:** An allowance for 14 dwelling losses per annum has been included in the trajectory. This figure is based on previous rates of losses.

It is expected that 7945 dwellings on large sites (with planning permission) and 258 dwellings on small sites (with planning permission) will contribute to the housing land supply to 2028. At the 1st April 2019 513 dwellings were under construction.

For further information on large sites with planning permission please view the Housing Position Paper which can be found on our website [here](#).

Affordable Housing Completions

The number of affordable housing completions is monitored alongside general market housing completions. The number of affordable homes completed during the first three years of the Plan period was relatively low with 33 affordable housing completions in 2011/12 and 2012/13 and 23 affordable housing completions in 2013/14. However, in 2014/15 affordable housing completions rose substantially to 97 and continued to do so with 107 completions in 2015/16, 185 completions in 2016/17 and 180 completions in 2018/17. 225 affordable homes were completed during the 2018/19 monitoring period.

Table 4: Gross Affordable Housing Completions 2018-19

Social Rented Homes	Shared Ownership	Affordable Rented Homes	Affordable Homes Total
99	43	83	225

Dwelling Type Monitoring

Completions are recorded on a site basis. Table 5 below shows the numbers and percentages of completions in 2018/19 categorised by type of dwelling and number of bedrooms.

There was an increase in the number of 4 bed houses (425 completions) and 5 bed houses (110 completions) in comparison with the previous year (266 and 54 respectively). There was an increase in the number of flats (48 completions) compared to last year (43 completions) and a decrease in the number of bungalows completed (8 in 2018/19 compared to 9 in 2017/18).

Table 5: Gross Completions by Dwelling Type and Size

Dwelling Type	1 Bed	% 1 Bed	2 Bed	% 2 Bed	3 Bed	% 3 Bed	4 Bed	5+ Bed	Unknown	Total	Dwelling Type %
Bungalow	2	25.0	3	37.5	2	25.0	1	0	0	8	0.7
Flat or Apartment or Maisonette	38	79.5	10	20.8	0	0	0	0	0	48	3.9
House	13	1.1	198	16.9	427	36.4	425	110	1	1174	95.4
Total (gross)	53	4.3	211	17.2	429	34.9	425	110	1	1230	

Gypsy and Travellers

A Gypsy and Traveller Accommodation Assessment (GTAA) covering Derbyshire, the Peak District National Park and East Staffordshire was jointly commissioned and subsequently published in June 2015. This study identified a need for South Derbyshire of 38 new pitches over the period 1 April 2014 – 31 March 2034, of which 14 pitches were to be delivered in the first five years. Beyond March 2019 the identified need for new pitches for each five year period is seven, eight and nine respectively.

During the 2018/19 monitoring year a total of two permanent traveller pitches were granted planning consent.

Self-Build

The Self-build and Custom Housebuilding Act 2015 places a duty on local authorities to keep and publish a register of individuals and community groups (associations of individuals) locally who want to acquire land for self-build homes and to have regard to these registers in carrying out the following functions; planning, housing, the disposal of any land by the authority and regeneration.

Local authorities must give suitable development permission to enough suitable serviced plots of land to meet the demand for self-build and custom housebuilding in their area. The level of demand is established by reference to the number of entries added to an authority's register during a base period.

The first base period began on the day on which the register (which meets the requirement of the 2015 Act) was established and ended on 30 October 2016. Each subsequent base period is the period of 12 months beginning immediately after the end of the previous base period. Subsequent base periods therefore run from 31 October to 30 October each year. At the end of each base period, relevant authorities have three years in which to permission an equivalent number of plots of land, which are suitable for self-build and custom housebuilding, as there are entries for that base period.

At the close of the third base period ending October 30, 2018, there were 33 individuals recorded on the Council's self-build register of which 10 were added during the period, ending 30 October 2018. All but one on the self-build register was looking for a single plot, whilst the remaining individuals sought one to two plots. There are no associations recorded on the Council's register. The number of individuals added to the self-build register in the third base year (10 individuals) was less than the number of individuals added in the second base year, where 17 individuals were added during the period.

Between the end of the second base period, ending 30th October 2017 and the end of the third base period ending 30th October 2018 planning permission was granted for 28 single residential units, including 11 provided through the conversion of existing buildings.

Employment

The total industrial and business land need outside the Derby Urban Area within South Derbyshire between April 2011 and March 2028 is 47.27ha. The position as at 31 March 2019 is set out in Table 8 below. There is 70.46ha with planning consent and 18.71ha does not yet have planning consent but is allocated for industrial and business development in the Local Plan Part 1. Gross employment land provision within the District therefore measures 125.72ha. Since April 2011 20.58ha of land on established employment sites has been lost to other uses. A breakdown of current employment land provision is set out in Table 8.

Table 6: Total Additional Floor space, Proportion of Business Development on Previously Developed Land and Employment Land Remaining (by type) in 2018/19

Description		B1a	B1b	B1c	B2	B8	Mixed	Total
Employment land developed or lost in 2018/19 by type.	Gains (ha)	0.23	0	0	1.16	0.90	1.24	3.53
	Losses (ha)	0.04	0	0.24	0.09	2.21	0	2.58
Employment floor space developed or lost in 2018/19 by type	Gains (sqm)	386	0	0	2348	990	5682	9406
	Losses (sqm)	80	0	1026	12391	21089	0	34586
Floor space developed for employment in 2018/19 on previously developed land.	Gains (sqm)	340	0	0	1708	990	5682	8720
	% of gains on PDL	88.08	0	0	72.74	100	100	92.70

At 31 March 2019 the amount of new land developed since 1 March 2011 was 36.04 ha and Table 8 below shows the breakdown of completed sites:

Table 7: Completed employment sites since the start of the planning period, 2011

Sites Completed since 2011	Area (ha.)
Former Bretby Hotel and Conference Centre	1.35
Nestle, Marston Lane, Hatton	12.91
Park Road, Newhall	1.62
Dove Valley Park, Foston	2.32
Keystone Lintels, Swadlincote	2.00
ATL Foston	1.34
Tetron Point, Swadlincote	2.65
Small sites (less than 1ha)	11.85
Total	36.04

Table 8: Employment Land Provision at 31st March 2019

Sites Under Construction	Area (ha.)
Small sites (less than 1ha)	0.51
Total	0.51
Sites with Planning Permission	
Tetron Point, Swadlincote	4.71
Dove Valley Park, Foston	17.01
Land North of Dove Valley Park	23.50
Former MOD Depot, Hilton	3.15
Former Drakelow Power Station	12.0
South of Cadley Hill Industrial Estate	3.00
ATL, Foston	2.2
Woodyard Lane , Foston	3.22
Small sites (less than 1ha.)	1.67
Local Plan Allocations without Planning Permission	
Hilton	3.71
Cadley Hill	3
Woodville Regeneration Area	12

Total	89.68
Loss of Employment Land	
Losses since 1st April 2011	20.58

Retail

The Council currently monitors vacancy rates in Swadlincote Town centre twice annually in February and September. The latest information within the monitoring period for which data is available is February 2019.

At this point 184 retail, leisure and office units were recorded for monitoring purposes in Swadlincote town centre of which 90 were Use Class A1 units. Of which 10 units were recorded as being vacant with a total floor area of 1672 sqm, representing 5.43% of all ground floor retail, office and leisure units or 3.11% of all ground floor retail, office and leisure floorspace.

Figure 1: Vacant Units in Swadlincote as recorded in February 2019 (vacant units coloured red)

Regeneration

Brownfield Land Register

Regulation 3 of the Town and Country Planning (Brownfield Land Register) Regulations 2017 requires local planning authorities in England to prepare, maintain and publish registers of previously developed (brownfield) land by 31 December 2017. The registers are intended to provide information on sites that local authorities consider to be appropriate for residential development. Brownfield sites that meet the relevant criteria must be entered in Part 1 of brownfield land registers. Sites entered in Part 2 of the brownfield land registers are granted permission in principle. Regulation 17 requires local planning authorities to review their registers at least once a year. The published register for 2018 comprises 19 sites, all contained within Part 1 of the register, with a total combined land area of 71.27 ha. It may be viewed on the District Council website [here](#):

Infrastructure

The Council's Infrastructure Delivery Plan sets out the transport, physical, social and green infrastructure required to support the District's future growth up to 2028 and was reviewed during the monitoring year.

The Local Centre at Highfields Farm and the retail units at Chellaston Fields were completed within the monitoring period.

Appendix: Policy Monitoring (based on Monitoring and Implementation Tables for LPP1 and LPP2)

Indicator	Policy Number	Policy Name	Plan	Performance
Spatial Strategy Policies				
Number of planning applications which go to appeal and are subsequently granted planning permission	S2	Presumption in Favour of Sustainable Development	LPP1	Five applications were allowed at appeal
Net number of additional dwellings each year	S4	Housing Strategy	LPP1	1218 (net) additions. See main text for further information
Five Year Housing Land Supply	S4	Housing Strategy	LPP1	See Housing Position Paper
Annual net additional employment floor space and net employment land	S5	Employment Land Need	LPP1	Additional floor space and land, net of losses, delivered in the monitoring period were -25,180 sqm and 0.95 ha respectively. The loss of employment floor space recorded in this period was predominately due to demolition of units at Hilton Business Park which is a Local Plan Part 1 housing allocation and the part demolition of a building to allow open storage on an existing employment site in Swadlincote.
Amount of vacant ground floor retail, office and leisure floorspace in Swadlincote Town Centre	S7	Retail	LPP1	10 by number of units (5.43% of all ground floor retail, leisure and office use) or 1672m ² (3.11%) by floor area. See main text for further information
Amount of new development granted within the Green Belt, including conversion, reuse of buildings and new buildings (excluding householder extensions)	S8	Green Belt	LPP1	Three applications for new development were granted in the Green Belt
Settlement Development Policies				
Number of applications (full or outline on major sites) for market housing granted consent outside of the settlement boundaries	SDT1	Settlement Boundaries and Development	LPP2	There were 0 consented outside of settlement boundaries (and contrary to the development Plan) in the monitoring period.
Housing Policies				
Net additional dwellings by category of the settlement hierarchy	H1		LPP1	Derby UA Burton UA Swadlincote Key Service Villages 616 dwellings 45 dwellings 224 dwellings 252 dwellings

				<p>Local Service Villages 65 dwellings*</p> <p>Rural villages /areas 16 dwellings</p> <p>*The Aston-On-Trent settlement boundary crosses into the parish of Weston-on-Trent, consequently the Aston Hall Hospital development (Local Plan Part 1 Housing Allocation - Policy H8) is included in Local Service Village completions for Weston-on-Trent</p>
Meet policy including site specific policy requirements	H2-H19	Strategic Housing Site Policies	LPP2	<p>H9 - Land at Longlands – Repton</p> <p>The development addresses with requirements associated with landscaping, heritage, drainage, developer contributions.</p>
The number of dwelling types built each year	H20	Housing Balance	LPP1	See main body of this report
The number of market, social and intermediate housing constructed annually	H20	Housing Balance	LPP1	See main body of this report
Density of wholly completed sites or phases	H20	Housing Balance	LPP1	<p>Eleven sites of 10 dwellings or more were completed within monitoring year, comprising a total of 780 dwellings on a gross area of 23.42 ha, giving an average of 33.30 dwellings per hectare</p>
Annual affordable housing completions including the number of social rented and intermediate affordable housing	H21	Affordable Housing	LPP1	See main body of this report
The number of dwellings annually completed on exception sites	H21	Affordable Housing	LPP1	None
Number of additional pitches granted planning permission annually	H22	Sites for Gypsies and Travellers and Travelling Show people	LPP1	During the 2018/19 monitoring year a total of 2 permanent traveller pitches were granted
Meet policy including site specific policy requirements	H23	Non-Strategic Housing Site Policies	LPP2	<p>H23F – Valley Road, Overseal</p> <p>The development addresses with requirements associated with, landscaping, footpath retention and developer contributions.</p> <p>H23K – Midland Road, Swadlincote</p> <p>The development addresses the requirements associated with drainage, finished floor levels and the permission considered providing pedestrian connections with Eureka Park.</p>

Number of planning applications for replacement dwellings in rural areas (outside of settlement boundaries)	H24	Replacement dwellings in the countryside	LPP2	Five applications for replacement dwellings outside of settlement boundaries have been recorded in the monitoring period, all of which were granted consent.
Number of Rural worker dwellings consented in the monitoring period	H25	Rural Workers	LPP2	Two applications for permanent workers dwelling were granted
Number of applications for new residential garden land in the countryside	H26	Residential Gardens in the Countryside	LPP2	Six applications were granted planning permission for residential garden use outside of settlement boundaries in the monitoring period.
Number of householder applications lost on appeal	H27	Residential Extensions and Other Householder Development	LPP2	4 appeals were dismissed and two allowed
