EDS/49. **DERBY AND SANDIACRE CANAL**

A short presentation was delivered by Rob Hartley of the Derby and Sandiacre Canal Trust on its current proposals and planned developments.

He advised Members that the project had moved forward considerably in the last year, specifically in regard to two sections, at Spondon and Draycott. He gave further details on the developments proposed at these sites. He also advised that the Derby Arm was currently being considered for development, and there was a design competition being held for this location. He added that, in regard to this development, they had encountered several planning issues, and must now submit further information, including a further flood risk assessment and an environmental impact assessment. He advised that the Trust was exploring commercial use of the Canal, and gave a further update on the River Lights project.

Further to a question, he advised Members that it was very difficult to identify a timescale for completion of the whole project, and they were focusing on delivering the projects at Spondon Mill and Draycott. He also confirmed the current financial position of the Trust.
