

In accordance with Council Procedure Rule No.11 Councillor Lemmon will ask the Leader of the Council the following question:

*“From a Freedom of Information request we understand that NW Leicestershire Council have a 38-day void measurement on their council properties. The SDDC figure currently stands at 183 days. This excessive void period places huge financial strains on our organisation and leaves residents waiting far too long for a property to become available.*

*Can we ask by what date the Chair of Housing & Community Services will commit to matching NW Leicestershire performance on voids at 38 days?”*
