Our Ref: DS Your Ref:

Date: 10 January 2017

Dear Councillor,

Overview and Scrutiny Committee

A Meeting of the **Overview and Scrutiny Committee** will be held in the **Council Chamber**, on **Wednesday**, **18 January 2017** at **18:00**. You are requested to attend.

Yours faithfully,

LIMIK M SARME

Chief Executive

To:- Conservative Group

Councillor Mrs Farrington (Chairman), Councillor Swann (Vice-Chairman) and Councillors Billings, Mrs Coe and Mrs Patten

Labour Group

Councillors Bambrick, Dunn and Dr Pearson

AGENDA

Open to Public and Press

1	Apologies.	
2	To note any declarations of interest arising from any items on the	
•	Agenda To procedure and the control of the control	
3	To receive any questions by members of the public pursuant to	
	Council Procedure Rule No.10.	
4	To receive any questions by Members of the Council pursuant to	
	Council procedure Rule No. 11.	
5	BUDGET REPORT 2017-18 incorporating the Consolidated Budget	3 - 34
	Proposals and Medium Term Financial Plan to 2022	
6	REVIEW OF THE COUNCIL'S RECYCLING AND BULKY WASTE	35 - 41
	COLLECTION SERVICES and REVIEW OF THE COUNCIL'S	
	STREET SCENE SERVICES	
7	COMMITTEE WORK PROGRAMME REPORT	42 - 43

Exclusion of the Public and Press:

- 8 The Chairman may therefore move:-
 - That in accordance with Section 100 (A)(4) of the Local Government Act 1972 (as amended) the press and public be excluded from the remainder of the Meeting as it is likely, in view of the nature of the business to be transacted or the nature of the proceedings, that there would be disclosed exempt information as defined in the paragraph of Part I of the Schedule 12A of the Act indicated in the header to each report on the Agenda.
- 9 To receive any Exempt questions by Members of the Council pursuant to Council procedure Rule No. 11.

REPORT TO: OVERVIEW AND SCRUTINY AGENDA ITEM: 5

COMMITTEE

DATE OF 18th JANUARY 2017 CATEGORY:

MEETING: RECOMMENDED

SUBJECT: BUDGET REPORT 2017/18 REF:

Incorporating the Consolidated
Budget Proposals and Medium Term

Financial Plan to 2022

WARD (S) TERMS OF

AFFECTED: ALL REFERENCE: FM 08

1.0 Recommendations

1.1 That the estimates of revenue income and expenditure for 2017/18 for the General Fund are considered and a level of income and expenditure is approved.

- 1.2 That consideration is given to the level of an increase in grants to voluntary bodies and payments to Parish Councils under concurrent functions.
- 1.3 That the Council Tax Base for 2017/18 of 31,647 (equivalent Band D) properties as detailed in **Appendix 3** is approved.
- 1.4 That a Council Tax Surplus of £500,000 is declared on the Collection Fund for 2016/17 and the Council's proportion of £55,000 is transferred to the General Fund in 2017/18.
- 1.5 That consideration is given to the rate of Council Tax for 2017/18.
- 1.6 That the updated 5-year financial projection on the General Fund to 2022 as detailed in **Appendix 1**, including associated assumptions and risks as detailed in the report, is approved.
- 1.7 That the annual amount set-aside for Growth in the General Fund is increased from £100,000 to £200,000 per year from 2016/17.
- 1.8 That a new Earmarked Reserve is established to fund service pressures relating to Growth.
- 1.9 That any unused sums each year set-aside in the General Fund regarding Growth and other Contingencies are transferred to the Earmarked Reserve in 1.8 above.

- 1.10 That a strategy and action plan is drawn up to generate budget savings of £800,000 on the General Fund ahead of 2018/19.
- 1.11 That the decisions made in recommendations 1.1 to 1.10 are used as the basis for consultation with local residents, businesses, voluntary and community groups, etc. and are subject to review by the Overview and Scrutiny Committee.

2.0 Purpose of the Report

- 2.1 To detail the Council's overall financial position following a detailed review of current income and expenditure on the General Fund. This builds on the financial plan and strategy approved in October 2016. The report covers the following:
 - Confirmation of the Council's financial settlement from Central Government for 2017/18.
 - The Council's current spending and proposed base budget position for 2017/18 including proposed spending by Policy Committees.
 - The proposed Council Tax Base for 2017/18 and projected Collection Fund position, 2016/17.
 - Planned Council Tax levels in 2017/18 and future years.
 - The overall impact on the General Fund's 5-year financial projection.
- 2.2 The report is divided into several sections as follows:
 - Section 3 Summary and Overall Commentary
 - Section 4 The Council's Financial Settlement for 2017/18
 - Section 5 Proposed Base Budget and Consolidated Spending 2017/18
 - Section 6 Revised General Fund Financial Projection to 2022
 - Section 7 Council Tax, Tax Base and Collection Fund Position
 - Section 8 Overall Risk Analysis

Appendices:

- Appendix 1 General Fund Summary Budget and 5-year projection
- Appendix 2 Proposed Base Budgets of Policy Committees
- Appendix 3 Calculation of Council Tax Base 2017/18
- Appendix 4 Estimated Collection Fund Position 2016/17

3.0 **Summary and Overall Commentary**

- 3.1 The updated medium term financial projection was considered and approved by the Committee on 14th October 2016. This set out the projected level of net revenue expenditure on the General Fund, together with the level of the General Fund Reserve to 2022.
- 3.2 The overall projected position at that time, is summarised in the following table.

General Fund: Medium-Term Projection as at October 2016

Year	Budget Deficit / Surplus (-) £	Sums Earmarked against Reserve £	Balance of General Reserve £
Base Budget 2016/17	-947,590	596,211	7,339,878
Projection 2017/18	260,037	82,000	6,997,841
Projection 2018/19	1,412,845	20,000	5,564,996
Projection 2019/20	2,001,034	270,000	3,293,962
Projection 2020/21	2,028,625	270,000	995,337
Projection 2021/22	2,123,676	270,000	- 1,398,339

- 3.3 At this stage, it was reported that the overall position on the General Fund had not changed fundamentally over the last year. The current level of the General Fund Reserve remained healthy and was projected to remain so over the next 3 to 4 years based on current forecasts.
- 3.4 However, the main issue identified was the projected budget deficit over the medium-term from 2017/18 and in particular form 2018/19 when the impact of the next reduction in core funding was expected to take effect.
- 3.5 Although the current level of reserves could be used to meet the projected deficit, this was not considered a sustainable solution in the longer-term. The MTFP continued to assume that base budget expenditure would increase year-on-year but overall core funding would reduce in accordance with the Government's Spending Review (2015).

The Updated General Fund Position

- 3.6 As part of the annual budget round, the Council's base budget has been reviewed in detail. This has identified some additional cost pressures, although there have also been some budget savings arising out of the review.
- 3.7 Following the Government's provisional Financial Settlement which was published on 15th December 2016, together with proposals contained in the Base Budget for 2016/17, the paging position has been updated. This is summarised in the following table.

General Fund: Medium-Term Projection as at January 2017

Year	Budget Deficit / Surplus (-) £	Earmarked Sums £	Balance of General Reserve £
Base Budget 2016/17	-1,199,598	581,211	7,606,886
Proposed Budget 2017/18	-529,104	147,000	7,988,990
Projection 2018/19	819,138	20,000	7,149,852
Projection 2019/20	1,562,427	270,000	5,317,425
Projection 2020/21	1,604,595	270,000	3,442,830
Projection 2021/22	2,041,764	270,000	1,131,066

3.8 The overall financial profile of the General Fund remains the same as previously reported over the last 2 years. Although overall Base Budget expenditure has slightly increased (as detailed in Section 5) this has been more than offset by additional receipts from the growth in Council Tax, New Homes Bonus and Business Rates. A summary of the overall change is shown in the following table:

	£'000
Projected 5-year Reserve Balance (pre-Budget)	-1,398
Net increase in Base Budget (Section 5)	-89
Projected increase in Business Rates (Section 4)	2,175
Projected increase in New Homes Bonus (Section 4)	761
Increase in Council Tax Base (Section 7)	282
Less proposed increase in Growth Provision (see below)	-600
Projected Reserve Balance (undated) as 2021/22	1.131

Projected Reserve Balance (updated) as 2021/22 1,131

- 3.9 The increase in projected income has improved the overall position. However, the underlying issue of a significant deficit in future years still remains.
- 3.10 The General Fund is forecast to achieve budget surpluses for 2016/17 and 2017/18 based on current projections. A deficit is then forecast from 2018/19, as Revenue Support Grant falls out and the full impact of the revised allocations for the New Homes Bonus take effect.
- 3.11 The current General Fund Balance is healthy and is forecast to remain above the minimum level of £1m in 2021/22. Therefore, the annual deficits could be financed by drawing down the current level of the General Reserve.
- 3.12 Effectively, the financial projection shows the implications of taking that action. However, it is considered that this is a high risk strategy. The annual budget deficits are still projected to be significant even after increasing income as detailed above.

- 3.13 If no action is taken to reduce future deficits, it could quickly de-stabilise the financial position given that any action to achieve budget savings may take time to fully implement. Effectively, the current base budget remains unsustainable in the medium-term.
- 3.14 Provision for certain cost pressures and potential risks have been included in the MTFP. However, it is considered that additional income being generated may at some point need to be set-aside to pay for additional demand on services.
- 3.15 It is considered that a balanced approach needs to be undertaken by utilising reserves, identifying some budget savings and at the same time providing for additional costs associated with Growth.
- 3.16 Therefore, it is recommended that the Council takes action during 2017/18 to alleviate the projected budget deficit of £800,000 in 2018/19. This would ease the pressure in future years and help to maintain a sustainable financial position.

- 4.1 The provisional financial settlement (subject to consultation) was announced on 15th December 2016. This provided actual figures for 2017/18, together with provisional allocations for the following two years 2018/19 and 2019/20.
- 4.2 The settlement for 2017/18 is the second year of a 4-year settlement for local councils, which covers the remaining parliamentary period.
- 4.3 The provisional allocations confirm the figures released in 2016/17 for Revenue Support Grant, together with baseline amounts for Business Rates and Tariff payments (see 4.5 below). There is very little change to the figures announced 12 months ago and included in the MTFP. The Council's figures are shown in the following table.

	2016/17 £'000	2017/18 £'000	2018/19 £'000	2019/20 £'000
Revenue Support Grant	1,199	668	338	-30
Baseline Business Rates	2,310	2,357	2,433	2,519
Total	3,509	3,025	2,771	2,489

Note: The negative figure for Revenue Support Grant in 2019/20 is due to the formula in the national distribution system. It is expected that in practice, any balance would be adjusted through the Business Rates allocation.

- 4.4 The Revenue Support Grant is a fixed amount. The figure for Business Rates is not the amount that is retained in the General Fund. The actual amount depends on the total amount collected in the year, together with growth and the return from the Derbyshire Business Rates Pool. This is detailed later in the report in Section 7.
- 4.5 The Baseline effectively acts as a benchmark against which growth and any safety net payments are measured. The Baseline is net of the Tariff paid over to the Government as part of the national redistribution system. The Tariff is £6.25m in 2016/17, £6.19m in 2018/19, but this is forecast to rise to £6.62m by 2019/20.
- 4.6 The Baseline and Tariff figures have been amended slightly since last year to reflect the 2017 Business Rates revaluation.

New Homes Bonus (NHB)

- 4.7 The allocation of NHB was also published alongside the main financial settlement. The Government also published a response to their consultation on future allocations for which the Council provided a detailed response in March 2016.
- 4.8 The proposals in the Government's Consultation will effectively reduce future allocations and the MTFP was updated last year to include the potential implications.

 Page 8 of 43

Sharpening the Incentive

4.9 The Consultation was titled "New Homes Bonus: Sharpening the Incentive." It set out proposals to effectively top slice bonus payments nationally to redistribute resources to fund Social Care. As part of the Consultation, there were four main proposals.

To reduce the period of Legacy Payments

- 4.10 For each new home built in any one year, it currently attracts NHB at the average Council Tax rate for England in the appropriate band, for 6 years. The Government proposed to reduce these "legacy" payments from 6 to 4 years.
- 4.11 The Consultation also put forward options for the legacy period to be reduced down to 3 or even 2 years, or to phase it in stages from 6, to 5 to 4 years. The Government has opted for 4 years from 2018/19, with a transitional period in 2017/18 of 5 years. The MTFP had been based on this option.

To remove "Deadweight"

- 4.12 This proposal would assume an underlying growth rate in new homes to remove the "deadweight" from future allocations. The Government proposed to use an average national growth rate in new homes of 0.25% as a baseline.
- 4.13 This effectively assumes that an initial proportion of growth in new homes would have occurred anyway and should not attract bonus payments. Councils who had a growth rate in any year of 0.25% would not receive any NHB.
- 4.14 Following the consultation, the Government <u>has set the baseline at 0.4%</u>, although 80% of 287 responses to the Consultation disagreed with the principle. The Government pointed to average growth nationally of 0.7% in the previous 10-years and 0.9% in 2015/16.
- 4.15 In addition, this proposal will be introduced a year earlier in 2017/18. These changes in the Baseline will enable the Government to top-slice a greater proportion of the New Homes Bonus to pay for an additional Adult Social Care Grant.
- 4.16 The baseline figure will be subject to annual review depending on any significant changes to annual growth.

Planning Appeals and the Local Plan

- 4.17 There were two other proposals in the Consultation which are less quantifiable, but are aimed at penalising authorities who appear to be "stifling" growth.
- 4.18 Firstly, NHB would not be paid on new homes built which were rejected by the planning authority but then overturned on appeal. Following the Consultation, this will be applied from 2018/19 although the detailed framework will be subject to further consultation if 2019/1843

- 4.19 Secondly, there was a proposal whereby any council that has not adopted a Local Plan would lose a proportion of its NHB until a plan was adopted. Following the Consultation, the Government has decided not to introduce this measure.
- 4.20 However, the Government has re-iterated that they will review the case for withholding future payments from areas not delivering on housing growth from 2018/19.

NHB – Implications for the MTFP

- 4.21 The Council's allocation for 2017/18 is £2.6m, compared to an estimate in the MTFP of £2.4m. This is based on 585 Band D equivalent properties, of which 64 were deemed as "affordable units". In addition, the number of empty properties reduced by 22 compared to the previous year.
- 4.22 The specific allocation for 2017/18 was £0.7m, the highest annual allocation since the Bonus was introduced in 2011/12. The remaining allocation of £1.9m relates to fixed amounts for the previous 4-years.
- 4.23 Future allocations have been based on the Government's final proposals arising from the Consultation. Annual growth of 508 properties has been assumed in future years. The effect in the MTFP is summarised in the following table.

New Homes Bonus - MTFP	2016/17 Actual £	2017/18 Budget £	2018/19 Forecast £	2019/20 Forecast £	2020/21 Forecast £	2021/22 Forecast £	TOTAL £
Forecasted October 2016	2,849,878	2,417,000	1,834,000	1,716,000	1,716,000	1,716,000	12,248,878
Actual/Provisional Allocations	2,849,878	2,601,787	2,171,399	2,008,315	1,860,405	1,518,254	13,010,038
Projected Increase	0	184,787	337,399	292,315	144,405	-197,746	761,160

- 4.24 As the table shows, the overall <u>net</u> increase in resources over the MTFP based on current forecasts is £761,000. This is mainly due to the on-going effect of the 2017/18 allocation and the increase in future growth from 400 to 508 properties per year. The allocation reduces in 2017/18 due to the move from six to five yearly allocations. The reduction in 2018/19 reflects the period being reduced from five to four years, with a further reduction in 2021/22 due to the allocation in 2017/18 falling out.
- 4.25 The phasing of the allocation period from 6 to 4 years, together with the transitional 5 years in 2017/18, had already been included in the MTFP. However, the increase in the "deadweight" percentage from 0.25% to 0.4% and its earlier implementation has reduced potential resources by approximately £3/4m over the MTFP.

Business Rates

4.26 Due to receipts being generated well above the Baseline and growth retained locally from the Derbyshire Page 18 in future years are expected to

- increase. The current MTFP includes a fairly low growth base over the Baseline compared to actual receipts over the last two years.
- 4.27 Receipts can fluctuate and perhaps pose a greater risk compared to the NHB as there are several external factors that can impact such as appeals and business failures, etc. However, it is considered that there is greater certainty regarding current forecasts in that they can be increased to reflect an increasing Baseline (due to inflation) together with continuing growth above the Baseline.
- 4.28 Current performance in 2016/17 is detailed in Section 7 on the Collection Fund. Based on that analysis the following amounts (with a comparison to the existing projections) have been included in the updated MTFP.

Retained Rates	2016/17 Budget £	2017/18 Budget £	2018/19 Forecast £	2019/20 Forecast £	2020/21 Forecast £	2021/22 Forecast £	TOTAL £
Total Receipts -							
SDDC Share	9,425,260	9,508,140	9,603,221	9,699,254	9,796,246	9,894,209	57,926,330
Less Tariff	-6,252,000	-6,194,000	-6,393,000	-6,620,000	-6,719,300	-6,820,090	-38,998,390
Add: Section 31							
Grants	353,870	353,870	353,870	353,870	353,870	353,870	2,123,220
Total	3,527,130	3,668,010	3,564,091	3,433,124	3,430,816	3,427,989	21,051,160
Comparison							
MTFP - October	3,170,000	3,010,000	3,099,000	3,199,000	3,199,000	3,199,000	18,876,000
Projected Increase	-357,130	-658,010	-465,091	-234,124	-231,816	-228,989	-2,175,160

- 4.32 The revised figures now show an increase each year. There is a reduction in 2019/20 as the provisional Tariff Payment increases at the end of the Government's spending review period. This may be offset by additional receipts but will depend on how the redistribution system works in that year. However, the above table clearly shows that there is scope for increasing projected receipts in the MTFP and it has been updated accordingly.
- 4.33 The Council will be required to submit its statutory return to the Government by 31st January 2017. This will detail the estimated position on the Collection Fund for 2016/17, together with its forecasts for 2017/18. Any changes to the figures included in this report will be reported to the Committee in February.
- 4.34 As previously reported, the Government is currently consulting on proposals to change the distribution of resources from 2019/20, together with proposals to return all Business Rates to local councils. The implications of these proposals on the Council's financial position are not likely to be known for at least a further year.

5.0 Proposed Base Budget and Consolidated Spending 2017/18

5.1 All Policy Committees (including an earlier report on this Agenda) have considered their detailed budget proposals for 2017/18. All services were asked to carefully consider their base income and expenditure.

Basis of the Budget

- 5.2 Budgets have generally been calculated on a "no increase basis," i.e. they are maintained at the same level as the previous year adjusted only for known changes, price increases and variations due to contractual obligations, etc.
- 5.3 In addition, budgets are also subject to a base line review which is used to justify proposed spending. This process places greater responsibility on budget holders to justify their spending budgets by specifying their needs in a more constructed manner. This is supported by the Financial Services Unit who analyse recent trends in expenditure across services compared to current budgets.

On-going Service Provision

- 5.4 The budgets are based substantively on a continuation of existing service provision, in respect of staffing levels, frequency and quality of service, etc.
- 5.5 The full year effects of previous year's restructures and budget savings have been included, with any non-recurring items being removed.

Inflation

- 5.6 The base budget for 2017/18 has been uplifted by inflation/indexation where this applies, for example pay awards and contract obligations.
- 5.7 Clearly, some base costs will be subject to inflation during future years and in some cases it will be "unavoidable," for example, employee costs when national pay increases are approved.
- 5.8 Allowances for inflation based on various assumptions regarding price increases, etc. are calculated across the main spending heads and in total, held as a central contingency.
- 5.9 In line with current policy, this contingency is reviewed and monitored by this Committee and allocated into service budgets as the actual effects of inflation become known over the year.

Base Budgets 2017/18

5.10 An analysis of each Committee's proposed budget has been detailed in separate reports to the respective Policy Committee ahead of this Committee. The main spending areas are summarised in **Appendix 2**, with a summary of each Committee's proposed spending shown in the following table.

Summary of Net Revenue Expenditure	Approved Budget 2016/17 £	Proposed Budget 2017/18 £	Change £
Environmental and Development Services	3,757,844	3,978,193	220,349
Housing and Community Services	2,337,318	2,185,406	-151,912
Finance and Management	5,027,875	5,173,525	145,651
Total Net Revenue Expenditure	11,123,037	11,337,124	214,087

5.11 The above table shows that overall base budget Committee expenditure is estimated to increase between 2016/17 and 2017/18 by £214,000. An analysis of the variances across each Committee is detailed in the following table.

	EDS £'000	HCS £'000	FM £'000	Total £'000
Inflation	7	4	43	54
Changes in Pay	31	41	25	97
Known Changes in MTFP		-44	36	-8
Recharges to the HRA	-40		-12	-52
Depreciation	98	-54	22	66
Budgeted Changes	96	-53	114	157
Reduction in income from Building Regulations	60			60
Increase in Recycling costs	46			46
Planning Services - Reduction in Specific Reserve	42			42
Increase in Maintenance of Car Parks	19			19
Increase in Income from Environmental Services	-17			-17
Reduction in Transport Fleet Costs - mainly Fuel	-20			-20
Depot - Recharge for Taxi Inspections	-10			-10
Lower budgets in Grounds Maintenance		-59		-59
Lower budgets in Private Sector Housing		-18		-18
Lower Utility Costs in Leisure Centres		-11		-11
Expected reduction from interest on Deposits			27	27
Reduction in the cost of Members' Expenses			-20	-20
Expected increase in Pension Deficit costs			30	30
Other variances	4	-11	-5	-12
Total - Other Changes	124	-99	32	57
Total - all Changes	220	-152	146	214

5.12 The table shows that of the total change, £157,000 is due to budgeted changes included in the MTFP, which were expected. These mainly relate to inflation, changes in pay and in particular the on-going cost of the 2016 Pay and Grading Review, together with Depreciation; this is an accounting adjustment and not a final cost of the Budget on consolidation.

Other Base Budget Changes

- 5.13 The preceding table does highlight that there is an overall increase in the proposed base budget of £57,000. The most significant changes are the ongoing reduction in income from Building Control, together with an increase in Recycling costs.
- 5.14 The budget for Recycling has been aligned with actual costs incurred over the last year. The increase mainly relates to additional collection costs for "bring sites" and trade refuse collections. In addition, the proposed budget for publicity and awareness has been increased to reflect current requirements.
- 5.15 The proposed budget for maintenance of car parks has also been increased. This is to meet essential works identified. As noted by the Environmental and Development Services Committee, there is a potential capital investment required to cover longer-term liabilities.
- 5.16 A large part of these additional costs have been offset by budget savings elsewhere in other services. In particular, these relate to Grounds Maintenance and Private Sector Housing.
- 5.17 Following an analysis of expenditure, several budgets in these service areas are being reduced to reflect actual costs. Some of the expenditure, for example new equipment in Grounds Maintenance, is being met from the Section 106 (Commuted Sums) Reserve.
- 5.18 As reported to this Committee, the main variances for Finance Committee are the expected reduction in interest on deposits, together with a reduction in the budget for Members' Expenses.

Impact on the MTFP

- 5.19 The on-going effect of the increase in the Base Budget regarding unplanned budget changes adds approximately £285,000 (£57,000 per year for 5-years) into the MTFP to 2021/22. However, this has been offset by a re-evaluation of the inflation contingency in the medium-term compared to that previously estimated.
- 5.20 This reduces projected expenditure by approximately £39,000 per year (£196,000 over 5-years). This equates to a net increase of £89,000 over 5-years.
- 5.21 It should be noted that net expenditure in the General Fund is still forecast to rise from £11.1m in 2016/17, to £12.6m in 2021/22.

Individual Committee Risks

5.22 In addition to the cost pressures highlighted above, as part of the base budget review, each Committee identified several risk areas. The main issues are detailed in the following table. Page 14 of 43

Risk	Issue / Potential Effect	Mitigating Action

- 5.23 As part of the annual Budget Round, the Committee gives consideration to increasing the base contribution in grants to recognise inflationary pressures. Increases in recent years have been as follows:
 - 2016/17 2.0%
 - 2015/16 2.3%
 - 2014/15 2.0%
 - 2013/14 2.6%
 - 2012/13 No increase
 - 2011/12 No increase
- 5.24 Latest inflation rates show CPI running at 1.2% year on year, with RPI at 2.2%. The Government's Autumn Statement forecasts CPI inflation rising to 2.5% in 2017/18 and RPI to 3.2% in 2017/18. The Council's MTFP provides for a 2% increase.
- 5.25 Every 1% increase in the base level across all grants and payments equates to approximately £6,500 per year.
- 5.26 Housing and Community Services Committee considered an increase for grants to voluntary bodies and this Committee considered an increase for Concurrent Functions in the detailed budget report earlier on the Agenda.

- 6.1 The projection has been updated following the financial settlement (as detailed in Section 4) the proposed base budget (as detailed in Section 5) together with the proposed Tax Base and Collection Fund Surplus for 2017/18 (as detailed in Section 7).
- 6.2 The projection is calculated from a financial model, the summary of which is shown in **Appendix 1**. This also shows how certain items, such as future income levels and known changes to the base budget, are expected to change over the planning period. The key matters are detailed in the following sections.

Projected Budget Surplus/Deficit and Reserve Balances

6.3 This is summarised in the following table.

General Fund: Medium-Term Projection as at January 2017

Year	Budget Deficit / Surplus (-) £	Earmarked Sums £	Balance of General Reserve £
Base Budget 2016/17	-1,199,598	581,211	7,606,886
Proposed Budget 2017/18	-529,104	147,000	7,988,990
Projection 2018/19	819,138	20,000	7,149,852
Projection 2019/20	1,562,427	270,000	5,317,425
Projection 2020/21	1,604,595	270,000	3,442,830
Projection 2021/22	2,041,764	270,000	1,131,066

- 6.4 The overall financial profile of the General Fund remains the same as previously reported over the last 2 years. Although overall Base Budget expenditure has slightly increased (as detailed in Section 5) this has been more than offset by additional receipts from the growth in Council Tax, New Homes Bonus and Business Rates.
- 6.5 A summary of the overall change is shown in the following table:

	£'000
Projected 5-year Reserve Balance (pre-Budget)	-1,398
Net increase in Base Budget (Section 5)	-89
Projected increase in Business Rates (Section 4)	2,175
Projected increase in New Homes Bonus (Section 4)	761
Increase in Council Tax Base (Section 7)	282
Less proposed increase in Growth Provision (see below)	-600
Desired Desired Desired Deliver (1) and the district Control of the desired Control of the	4 4 2 4

Projected Reserve Balance (updated) as 2021/22

1,131

6.6 The increase in projected income has improved the overall position. However, the underlying issue of a significant deficit in future years still remains.

- 6.7 The General Fund is forecast to achieve budget surpluses for 2016/17 and 2017/18 based on current projections. A deficit is then forecast from 2018/19, as Revenue Support Grant falls out and the full impact of the revised allocations for the New Homes Bonus take effect.
- 6.8 The current General Fund Balance is healthy and is forecast to remain above the minimum level of £1m in 2021/22. Therefore, the annual deficits could be financed by drawing down the current level of the General Reserve. Effectively, the financial projection shows the implications of taking that action.
- 6.9 However, this is considered to be a high risk strategy. The annual budget deficits are still projected to be significant even after increasing income as detailed above. If no action is taken to reduce future deficits, it could quickly de-stabilise the financial position given that any action to achieve budget savings may take time to fully implement.
- 6.10 Effectively, the current base budget remains unsustainable in the medium-term. Provision for certain cost pressures and potential risks have been included in the MTFP. However, it is considered that additional income being generated may at some point need to be set-aside to pay for additional demand on services.
- 6.11 It is considered that a balanced approach needs to be undertaken by utilising reserves, identifying some budget savings and at the same time providing for additional costs associated with Growth.
- 6.12 Therefore, it is recommended that the Council takes action during 2017/18 to alleviate the projected budget deficit of £800,000 in 2018/19. This would ease the pressure in future years and help to maintain a sustainable financial position.

Growth

- 6.13 The Council is currently benefiting from additional income as new properties continue to be built and receipts from Business Rates continue above the Baseline. However, it is considered that a more significant increase in costs associated with additional demand on services (from growth) is still yet to fully materialise, for example, additional waste collection costs.
- 6.14 The MTFP continues to set-aside a growth provision of £100,000 per year. In past years, where this has not been utilised, it has been transferred back to the General Reserve.
- 6.15 **Section 7** details current and projected growth in properties (the Tax Base) included in the MTFP. Based on sites under construction, together with sites which have obtained outline and full planning permission, the latest planning estimates forecast up to 6,000 new homes over the next 5-years.
- 6.16 Clearly, this would generate father references in Council Tax and the New Homes Bonus and would significantly benefit the MTFP. However, it is

- considered that this level of growth would at some stage, place additional pressure on Council services.
- 6.17 This remains a key issue in the Financial Risk Register. Therefore, it is recommended that the annual provision is increased to £200,000.

Proposed Earmarked Reserve

- 6.18 In addition, it is also recommended that the MTFP starts to provide for this eventuality in 2016/17. Consequently, it is proposed that where the annual growth contingency (or any of the other contingencies) are not utilised, then remaining amounts are transferred to a separate Growth Reserve.
- 6.19 This is a proposed change in Financial Policy. If the underlying budget deficit is addressed, this would allow the Council to provide for additional costs and investment whilst maintaining financial stability.

Provisions and Contingencies

- 6.20 In addition to base budget expenditure, the MTFP continues to set-aside other sums. These are detailed and shown separately in the MTFP in Appendix 1 and provide resources to cover:
 - Pay and Grading the cost of the external facilitator to undertake future job evaluations.
 - Pay and Grading the cost of support to employees currently protected under job evaluation.
 - Incremental salary increases
 - Withdrawal of the County Council's contribution to Etwall Leisure Centre
 - "Off payroll" payments due to be implemented in April 2017
 - Future increases in the National Living Wage
 - Auto-enrolment due to be implemented in October 2017
 - Inflation
 - Cost of a District Election in May 2019
 - Apprenticeship Levy due to be implemented in April 2017
 - Waste and Recycling additional contract costs (to be determined)

- 6.21 The Council is still waiting for the outcome of the triennial valuation of the Derbyshire Pension Fund. This will determine employer and employee contributions for the 3-years commencing on 1st April 2017. The MTFP has provided for an increase of 3.4% per year.
- 6.22 The results of the valuation are expected shortly and will be reported to the Committee in February.

Summary Position

- 6.23 It is considered that the Council's overall Base Budget is prudent whilst also being realistic based on the most up-to-date information. The MTFP reflects current spending priorities and also allows for potential cost pressures.
- 6.24 The financial risks that the Council faces, together with mitigating actions, are detailed in **Section 8**.
- 6.25 It has been anticipated for some time that the General Fund would face reductions in core funding. Consequently, the Council has taken a cautious approach and built up a good level of General Reserves.
- 6.26 However, there are still considerable challenges. Firstly, to meet future budget deficits in the medium-term and in particular to achieve a level of budget savings of £800,000 before 2018/19 and secondly, to address potential service pressures.
- 6.27 On this second point, it is considered prudent to now set-aside greater sums to deal with future growth and investment. The strategy (as recommended earlier in this section) is to earmark some amounts, together with future income in order to maintain resources to meet additional demand.

The Council Tax Base

- 7.1 This relates to the number of chargeable properties for Council Tax after taking account of exemptions and discounts, including the Local Council Tax Support Scheme.
- 7.2 The calculation of the estimated Tax Base for 2017/18 is detailed in **Appendix** 3 and is based on the number of properties on the Council Tax register as at 31st October 2016.
- 7.3 This produces a "Band D equivalent" which will be used to calculate the amount to be collected from Council Tax in 2017/18, of 31,647. This is an increase of 657 (2.1%) compared to 2016/17.
- 7.4 The approved MTFP estimated an increase of 400 Band D properties. The proposed Tax Base of 31,647 will generate additional revenue of approximately £40,000 per year compared to the MTFP, assuming the rate of Council Tax is increased by 1.95% per year.

The Future Tax Base

- 7.5 The MTFP has previously assumed that the overall Tax Base will continue to increase by 400 properties per year. Over the last 3 and 4 years, average growth in Band D properties has been 446 and 426 respectively; the forecast for future growth in the tax base is positive.
- 7.6 Based on sites under construction, together with sites which have obtained outline and full planning permission, the latest planning estimates forecast the following completions in each year:
 - 2016/17 799 properties
 - 2017/18 1,088 properties
 - 2018/19 1,426 properties
 - 2019/20 1,510 properties
 - 2021/22 1,415 properties
- 7.7 Even allowing for some slippage, it is considered likely that the Tax Base will increase to a greater extent than the average in recent years. Locally, the housing market remains buoyant, although clearly a change in economic circumstances could have an impact on the above figures. In addition, it is difficult to estimate the Band D equivalents from the overall number of properties.
- 7.8 However, it is considered both realistic and prudent to increase the figure used in the MTFP for planning purposes from 400 to 426 per year respectively. Although this will only generate additional revenue of approximately £5,000 per year, the biggest impact is on the revenue generated from the New Homes Bonus as detailed in **Section 4** earlier in the report.

Collection Fund Surplus / Deficit

- 7.9 In setting the level of Council Tax for 2017/18, the Council is also required to calculate the estimated balance on its Collection Fund for the current financial year, 2016/17.
- 7.10 The Collection Fund is a separate ring-fenced account. It records all income collected from Council Tax and Business Rates and the money paid out to other authorities who precept on the Fund, together with payments to the Government under the redistribution mechanism for Business Rates.
- 7.11 The account in principle should balance each year. However, not all Council Tax is collected as circumstances, such as the number of houses subject to tax and households receiving exemptions and discounts, changes during the year. In addition, final collection rates from previous years may be higher than estimated.
- 7.12 These factors inevitably provide a balance at the end of each year. The Council has traditionally carried a surplus on its Collection Fund. Any surplus or deficit relating to Council Tax is transferred to the General Fund of the major preceptors, the biggest preceptor being Derbyshire County Council.
- 7.13 Under the national redistribution system, the Government receive a share (50%) of any surplus on Business Rates.

Estimated Position 2016/17

- 7.14 The estimated position on the Collection Fund for 2016/17 is summarised in **Appendix 4**. The Fund is split between Council Tax and Business Rates.
- 7.15 The overall balance on the Council Tax element is distributed to the major precepting authorities on the Fund, i.e. the District Council, Derbyshire County Council, together with the Police and Fire Authorities, in proportion to their precepts on the Fund. The surplus or deficit on the Business Rates element is adjusted and allocated in year.
- 7.16 It should be noted that Parish Councils do not gain a share of any balance on the Fund as they are categorised as local (and not major) preceptors under the Local Government Finance Act 1992.

Council Tax

- 7.17 The balance on the Council Tax element is estimated at £658,000 based on transactions up to November 2015. This is in line with that reported to the Committee in December following the half-yearly review. The main reason for the estimated surplus is the increase in the Tax Base above that budgeted, as detailed earlier in this section (above).
- 7.18 At this stage, it is considered prudent to declare a surplus of £500,000 for 2016/17, to leave a balance and ensure that the Fund does not fall into deficit.

- 7.19 If the surplus again continues to increase 2017/18 above that budgeted, then it will be declared in next year's budget any surplus remains in the Fund until it is declared by the Council.
- 7.20 Consequently, it is recommended that the surplus (in proportion to individual Precepts) is declared and shared as shown in the following table.

Share of Council Tax Surplus 2016/17		£.000
Derbyshire County Council	73.35%	367
Police and Crime Commissioner	11.15%	56
Fire and Rescue Authority	4.48%	22
South Derbyshire District Council	11.02%	55
	100.00%	500

7.21 The amount attributable to the Council of £55,000 has been included in the updated MTFP for 201/18 and compares to a budgeted amount of £20,000 – an increase of £35,000. An amount of £20,000 per year remains in the MTFP in future years.

Business Rates

- 7.22 As previously reported to the Committee, Business Rates incurred a deficit in 2015/16 due to a significant provision for appeals (subject to determination) which were lodged by businesses with the District Valuer regarding Rateable Values. Consequently, there was a deficit balance carried forward on Business Rates of £400,000 as at 31st March 2016.
- 7.23 During the budget round of 2016/17, the Council reported an estimated surplus on Business Rates for 2015/16 in its statutory return (known as NNDR 1) to the Government in January 2016. This was prior to the extent of the appeals situation being fully known.
- 7.24 Therefore, a surplus (estimated at £548,000) is being paid to Preceptors (including the Council) alongside their share of expected Business Rates in 2016/17.
- 7.25 As shown in Appendix 4, the actual in-year (2016/17) position is currently healthy, with total Business Rates generated of approximately £24.5m against an original forecast of £23.6m. Based on this position, it is currently forecast that Business Rates will return a surplus of £768,000 in 2016/17.
- 7.26 It is anticipated that this will reduce the deficit on the Fund by 31st March 2017 to £181,000.

Effect on the General Fund

7.27 The amount of income eventually passed to the General Fund is affected by other variables in the Rates Retention system, namely growth above the Government's baseline, the Deabystrice Business Rates Pool and Section 31 Grants.

7.28 The latest position on the General fund for 2016/17 is shown in the following table.

Business Rates Income 2016/17	Estimate £'000	Projection £'000	Variance £'000
Total Business Rates Due (including estimated surplus 2015/16)	9,633	9,633	-0
Less: Tariff Paid to the Government (fixed)	-6,252	-6,252	0
Less: Levy paid to Derbyshire Pool	-577	-799	-222
Add: Growth receipts returned from the Pool	366	591	225
Add: Section 31 Grants	0	354	354
	3,170	3,527	357

- 7.29 The total Rates due is effectively fixed at the start of the year as part of the Financial Settlement and includes the estimated surplus declared to the Government for 2015/16.
- 7.30 Growth above the Baseline has remained strong in 2016/17, being approximately £1.6m above the settlement figure. Of this, 50% (£799,000) is paid into the Derbyshire Pool. However, the Council is expected to receive £591,000 back, which would otherwise have been paid to the Government.
- 7.31 Overall, the General Fund position is on budget. However, it will benefit from the additional Section 31 Grants, which is the Government's compensation for the various rate reliefs it provides to help businesses.
- 7.32 Although this will reduce the Council's receipts, it is being absorbed in the overall growth. Effectively the figure of £354,000 is additional funding in 2016/17.
- 7.33 The total figure in the above table of £3.527m has been included in the updated MTFP. Future year's figures have been detailed previously in Section 4.
- 7.34 The Government has indicated that the Derbyshire Pool will continue in 2017/18 and this has been confirmed in the Financial Settlement for 2017/18. At this stage, no authority has indicated that they wish to opt out.

The Rate of Council Tax

- 7.35 Following changes to national and local policy regarding Council Tax increases from 2016/17, an increase of 1.95% per year is included in the MTFP, subject to annual review. This is just below the Government's limit of 2%, above which a local referendum would be required to set a higher increase.
- 7.36 However, as a shire district, the Council has the option of increasing its Council Tax rate by up to £5 at Band D, without it being subject to a local referendum.

 Page 24 of 43

- 7.37 The Band D Tax for 2016/17 is £153.18. The 1.95% increase in the MTFP will raise Band D to £156.17, an increase of £3 in 2017/18.
- 7.38 An increase of £5 would raise Band D in 2017/18 to £158.18 3.3%.
- 7.39 The updated MTFP continues to assume an increase of 1.95%. If an increase of 3.3% was applied in 2017/18, this would generate additional revenue of approximately £60,000 per year cumulatively £340,000 over 5-years.

8.0 Overall Risk Analysis

- 8.1 The summary in **Section 6** highlights that the Council's current financial position is likely to come under a considerable challenge over the forthcoming spending period.
- 8.2 Each Policy Committee has identified some financial risks and these have been detailed in **Section 5** with mitigating actions being put in place.
- 8.3 There are many variables that are included in the projection that carry a risk in that should they impact, they could have a significant effect on the overall financial position. Specifically, the MTFP sets-aside in year contingencies and provisions to guard against inflation, pay/pension increases, growth and unforeseen expenditure, etc.
- 8.4 More generally, the main risks in the financial register (as previously reported) are:

Higher Risks

- Further changes to the national funding system
- A reduction in Business Rates income due to appeals
- · Additional pressure on service costs due to growth

Lower Risks

- A budget overspend
- A downturn in the national economy
- Impact of Welfare Reform
- 8.5 The risk register details the arrangements in place to mitigate the impact of these risks. Currently, any issues arising from the lower risks (above) are not significantly impacting upon the Council's financial position. The impact of the higher risks is or has the potential to be more significant.
- 8.6 The MTFP has already factored in overall reductions in core funding from the national system; a large provision was made in the Council's Accounts in 2015/16 due to Business Rate appeals and population growth could eventually put pressure on the cost of services page 25 of 43

8.7 A change in Financial Strategy has been recommended in Section 6 to address potential costs arising from growth.

Financial Strengths

- 8.8 The financial position is currently healthy. However, it still faces a challenge to maintain a resilient and sustainable financial base. Currently, the Council's financial position is underpinned by several strengths that will help to mitigate its financial risks; these are as follows:
 - A positive cash flow
 - No debt outstanding (on the General Fund)
 - Not reliant on interest rates rising to generate additional income
 - Current General Reserves healthy
 - Contingent sums in the Base Budget to guard against inflation and growth
 - Budget for a full employee establishment no vacancy rate is assumed
 - Earmarked reserves for capital replacements for IT, vehicles and plant
 - Separate provision made for bad debts, appeals and pensions
 - Earmarked reserves to sustain project and capital works
 - Steady growth in the Tax Base.
 - Capital expenditure not heavily reliant on revenue funding or borrowing
- 8.9 The Council also has a history of spending within its overall Net Budget and has generated additional income through growth. However, this cannot be guaranteed in future years and is never assumed for future budgeting purposes in the MTFP.

Financial Risks and the Minimum Level of General Reserves

- 8.10 Although the Council has several areas of financial strengths to mitigate risks, the Council still needs to be prudent in ensuring that it maintains an adequate level of unallocated General Reserves on its General Fund to act as a contingency.
- 8.11 The Local Government Act 2003, places the emphasis on each local authority to determine its minimum level of reserves, based on advice from the authority's Section 151 (Chief Finance) Officer. This will depend on local circumstances and the minimum level should be reviewed on a regular basis.
- 8.12 Based on this, the Council's minimum level, as set out in the Financial Strategy, is £1m on the General Fund at the end of every 5-year planning period. This level is calculated based on an assessment of the major financial risks and reflects the relatively healthy level that currently exists.
- 8.13 Based on the estimated net revenue expenditure on the General Fund for 2017/18 of approximately £11m, £1m is **9%.** By 2021/22, £1m will be around **8%.** As a general guide, a balance of between 5% and 10% should be maintained.

9.0 Financial Implications

9.1 As detailed in the report.

10.0 Corporate Implications

10.1 There are no other direct legal, personnel or other corporate implications apart from any highlighted in the report.

11.0 Community Implications

- 11.1 The proposed budgets and spending, provide the financial resources to enable services and Council priorities in the Corporate Plan to be delivered to the local community.
- 11.2 The MTFP and associated projections provide an indication of the Council's longer term financial position and the potential effects upon the Council's services.

12.0 Background Papers

MEETING: RECOMMENDED

REPORT FROM: DIRECTOR of HOUSING & OPEN

ENVIRONMENTAL SERVICES

MEMBERS' MIKE HAYNES (01283 595775) DOC:

CONTACT POINT: <u>mike.haynes@south-derbys.gov.uk</u>

SUBJECT: REVIEW OF THE COUNCIL'S REF:

RECYCLING and BULKY WASTE

COLLECTION SERVICES

and

REVIEW OF THE COUNCIL'S STREET SCENE SERVICES

WARD(S) ALL TERMS OF

AFFECTED: REFERENCE: HC 01

1.0 Recommendations

1.1 Members requested to note the content of the report, and to support the proposed recommendations to the Environmental & Development Services Committee, and detailed at 3.1.1 to 3.1.6 within this report.

2.0 Purpose of the Report

2.1 The purpose of the report is to provide Members with details of how services are provided, and the proposals to address any areas of concern

3.0 Detail

3.1 At the meeting of this Committee on 19th October 2016, Members were presented with a scoping document (attached to this report as Appendix A and B), which recommended the service areas to be reviewed. Following debate at the above meeting, these were clarified as being:

Recycling and Bulky Waste Collection Services

3.1.1 To review the charges made and costs incurred in providing the services. The aim will be to investigate if the services are economical and/or if they deter residents and businesses from disposing of waste correctly.

Page 35 of 43

- 3.1.2 To review the type of bulky waste and recyclables collected, including what is accepted and refused. The aim will be to investigate if the service can be improved in order to reduce the amount of waste going to landfill.
- 3.1.3 To review the provision at Civic Amenity sites. The aim will be to investigate if these sites are value for money for the Council, and if the provision of such sites has an impact on the amount of waste going to landfill.

Street Scene Services

- 3.1.4 To review the services provided to ensure these economical to deliver, and meet the objective of keeping the District clean.
- 3.1.5 To consider the adoption of a zero tolerance policy to littering.
- 3.1.6 To review the provisions made to prevent fly tipping, and the standards adopted to ensure prosecution activities have the desired outcomes.

4.0 Background

4.1 Recycling

Recycling services within South Derbyshire are provided as free at the point of collection for all domestic residents within the District.

The costs of providing the service are met from the Council's General Fund, and are in the region of £650,000 for the financial year 2016/17. The contract was procured under EU regulations, and awarded to the most competitive tender. This therefore demonstrates that the Council let the contract to the contractor offering the most economical solution to the collection of recyclable waste.

As a Council, we empty over 3.25 million bins every year, collecting around 40,000 tonnes of waste. Of this, approximately 20% is recycled and 30% composted.

4.2 Bulky Waste and Commercial Collections

Bulky waste and commercial collection services within South Derbyshire are chargeable, and generate an income of c£100,000 per annum.

Bulky waste collections account for around 140 tonnes per year. Charges for are £30 per collection with a maximum of six items per collection.

South Derbyshire District Council collects commercial waste from approximately 450 businesses, amounting to c1500 tonnes of waste per year. Charges are based on cost of collection (£0.84 per lift) and disposal (£13.2 per lift), and based on an 1100 litre bin. The disposal charge is set by Derbyshire County Council.

4.3 Street Scene

Street scene services include the Council's clean team (covering fly tips, litter collection, dog fouling, and emptying the Council's street waste bins), gully cleansing, cleaning bus shelters and public toilets, and highway weed control.

The clean team respond to around approach dests each year of which 750 are for removing fly tips, 360 for clearing litter, and 120 for dealing with dog fouling.

On an annual basis, the team litter pick and sweep around 3000 km of footpaths and roadside verges, sweep 3500 km of roadside channels and apply weed control chemicals to around 3500 km of highway. They also undertake around 30,000 litter and dog bin empties per year; arrange for the cleaning of 140 bus shelters; and clean over 10,000 highway gullies. As a Council we also maintain and service 4 public toilets on a daily basis.

In addition to the above, the grounds maintenance team cut over 25 million square metres of grass each year, and maintain the three urban parks with staff in attendance on every day of the year, including public and bank holidays.

4.4 Fly Tipping

South Derbyshire District Council is not alone in seeing an increase in fly tipping in recent years. In the first six months of 2017/18, the number of incidents recorded was 349, with the trend showing an increase in Q2 over and above Q1.

As a Council, South Derbyshire have always taken a proactive approach to dealing with incidents of fly tipping, with a recent case becoming high profile following a successful prosecution. Evidence of this is demonstrated by the fact that, in the financial year to date, the Council's Safer Neighbourhoods team have issued in excess of 20 fixed penalty notices, and have succeeded in 4 prosecutions during the previous 12 months. In addition, a major investigation has led to the seizure of a 40 tonne HGV, whilst motion capture surveillance equipment is regularly deployed in fly tipping 'hot spots' to collect evidence.

5.0 Financial Implications

There are no financial implications for delivering the current services other than those reported in the service budgets to the Finance & Management Committee.

6.0 Corporate Implications

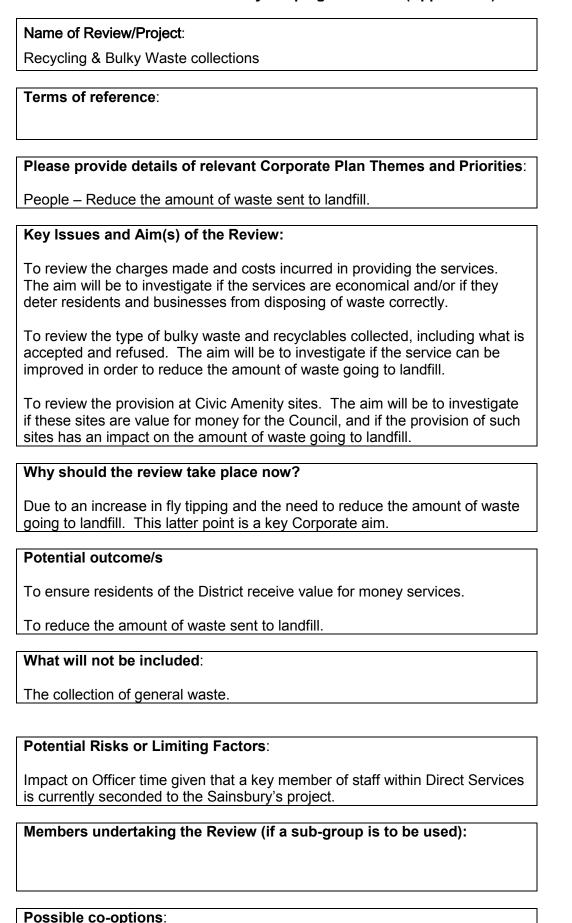

South Derbyshire District Council has within its Corporate Plan the following aims:

- Reduce the amount of waste sent to landfill
- Use existing tools and powers to take appropriate enforcement action
- Enhance environmental standards
- Deliver services that keep the District clean and healthy

7.0 Community Implications

Were this Council not to deliver successful services, views and comments from communities within the District could cause damage to the Council's reputation and its aim to deliver Corporate objectives.

Overview & Scrutiny Scoping Document (Appendix A)

Which policy committee(s) does it relate to?
Environmental & Development Services
Key stakeholders/ consultees:
SDDC Direct Services
