Details of representation (please use additional sheets where necessary)

The Newton Park Hotel has an ever increasing number of wedding celebrations. These are held on Thursdays, Fridays, Saturday and Sundays.

The Disco Dancing is held in the single glazed conservatory on the nearest side of the Hotel to our house. No. 1 see attached map. On warm nights the windows to the conservatory are opened because there is no air conditioning. Guests go outside to drink on warm nights. The noise levels are excessive and unreasonable.

To increase the entertainment Sunday to Thursday 08.00 to midnight in the working week is unreasonable and we oppose this.

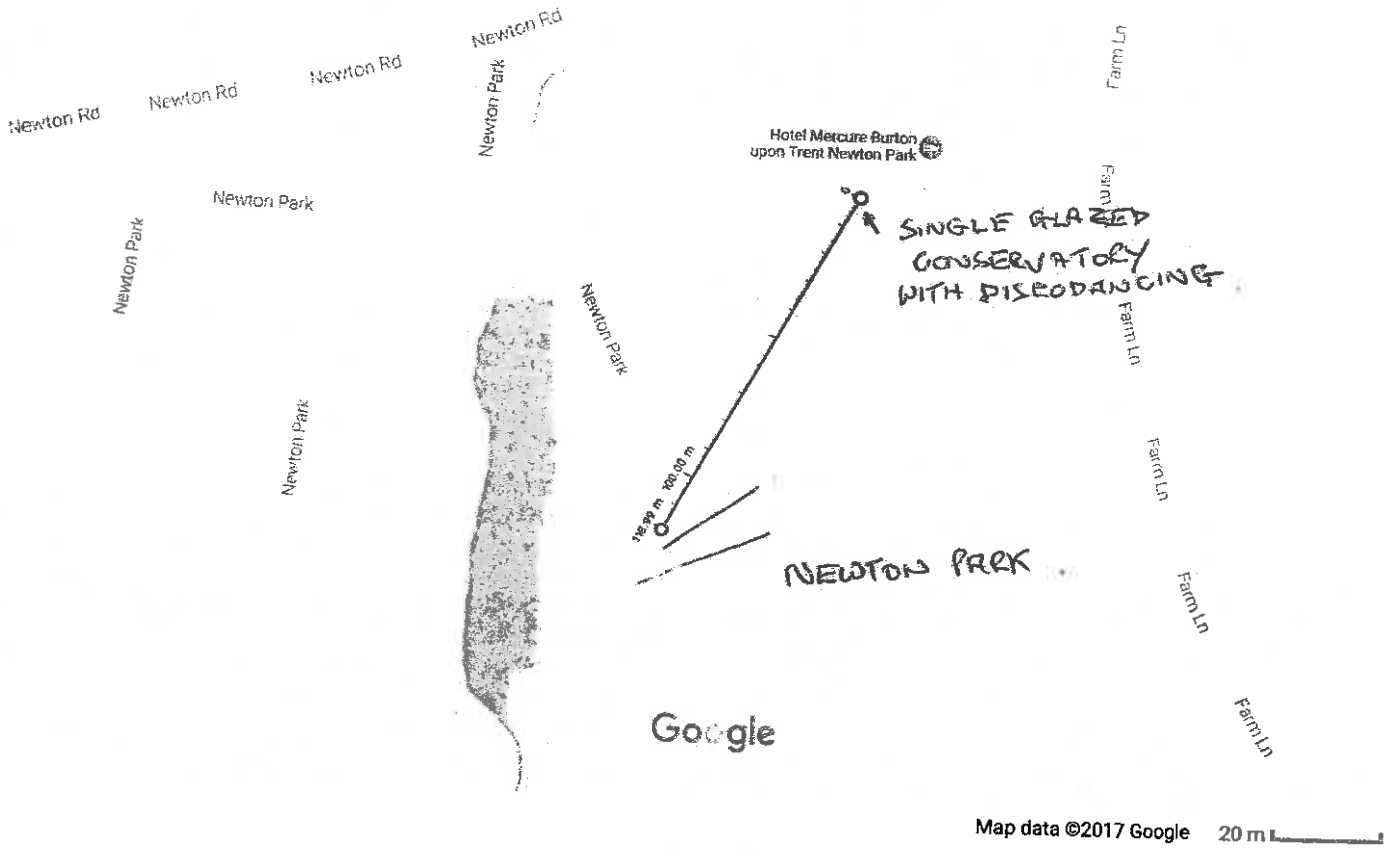

~~Friday~~ To increase Friday and Saturday entertainment from 0800 until 0030 the following morning (Sunday) is unreasonable and we oppose this.

To increase the late night refreshment Sunday to Thursday to midnight from 23.00 is unreasonable. We oppose this.

To increase the late night refreshment to 0030 on Saturdays and Sundays is unreasonable. We oppose this.

The overall problem with the above proposals is noise levels. The levels now are totally unacceptable.

Measure distance
Total distance: 118.99 m (390.40 ft)

If possible please suggest alterations to the application that would resolve the problem mentioned above, again paying attention to the licensing objectives

Reduce the noise levels by -

1. Erect an external acoustic screen between the conservatory and the houses on Norton Park.
I attach a list of websites of companies that provide this. (see attached sheet).
2. Air Condition the conservatory and stop the windows being opened.
3. Double glaze the conservatory windows.
4. Better supervision of the guests when they have gone outside.

Once the Licensing Section has received this form you will receive a written acknowledgement. Your representation will be forwarded to the applicant and/or their representative who may contact you in order to discuss your representations.

This form must be received by the Licensing Authority within the statutory representation period.
