Date: 19 December 2022

Dear Councillor,

Overview and Scrutiny Committee

A Meeting of the **Overview and Scrutiny Committee** will be held at **Council Chamber**, Civic Offices, Civic Way, Swadlincote, DE11 0AH on **Wednesday**, 04 January 2023 at 18:00. You are requested to attend.

Yours faithfully,

Muk Merrolle

Chief Executive

To: <u>Labour Group</u> Councillor Bambrick (Chair), Councillor Stuart (Vice-Chair) Councillors Gee and L Mulgrew

<u>Conservative Group</u> Councillors Ackroyd, Atkin, Hewlett and Muller.

AGENDA

Open to Public and Press

1 Apologies. 2 To note any declarations of interest arising from any items on the Agenda 3 To receive any questions by members of the public pursuant to Council Procedure Rule No.10. To receive any questions by Members of the Council pursuant to Council 4 procedure Rule No. 11. 5 REGULATION OF INVESTIGATORY POWERS ACT 2000 (RIPA) -3 - 4 **REPORT ON USAGE** COUNCIL HOUSE LETTINGS AND VOID PROPERTIES 6 5 - 23 7 VACANT POSTS AND AGENCY COSTS 24 - 30 8 COMMITTEE WORK PROGRAMME 31 - 32

Exclusion of the Public and Press:

9 The Chairman may therefore move:-

That in accordance with Section 100 (A)(4) of the Local Government Act 1972 (as amended) the press and public be excluded from the remainder of the Meeting as it is likely, in view of the nature of the business to be transacted or the nature of the proceedings, that there would be disclosed exempt information as defined in the paragraph of Part I of the Schedule 12A of the Act indicated in the header to each report on the Agenda.

10 To receive any Exempt questions by Members of the Council pursuant to Council procedure Rule No. 11.

REPORT TO:	OVERVIEW AND SCRUTINY COMMITTEE	AGENDA ITEM: 5
DATE OF MEETING:	4 JANUARY 2023	CATEGORY: DELEGATED
REPORT FROM	CHIEF EXECUTIVE	OPEN
MEMBERS' CONTACT POINT:	ARDIP SANDHU – 595715 Ardip.sandhu@southderbyshire.gov.uk	DOC:
SUBJECT:	REGULATION OF INVESTIGATORY POWERS ACT 2000 (RIPA) – REPORT ON USAGE	REF:
WARD(S) AFFECTED:	ALL	TERMS OF REFERENCE:

1.0 <u>Recommendations</u>

1.1 To note the internal report on the Council's use of the Regulation of Investigatory Powers Act 2000.

2.0 Purpose of Report

2.1 To note the report on the Council's use of the Regulation of Investigatory Powers Act 2000 since 1st September 2022.

3.0 Detail

- 3.1 The Committee, on 5th September 2018 approved the Council's amended RIPA Policy and Guidance document. The Overview and Scrutiny Committee is authorised to review the Council's use of RIPA, set the Council's general surveillance policy, and consider quarterly reports on the use of RIPA to ensure that it is being used as per the Council's policy.
- 3.2 RIPA is intended to regulate the use of investigatory powers and ensure they are used in accordance with human rights. This is achieved by requiring certain investigations involving covert surveillance to be authorised by an appropriate Authorising Officer and then a JP before they are carried out.
- 3.3 Directed surveillance is often conducted by local authorities to investigate benefit fraud or to collect evidence of anti-social behaviour. It may involve covertly following people, covertly taking photographs of them or using hidden cameras to record their movements.
- 3.4 RIPA stipulates that the person (Authorising Officer) granting an authorisation for directed surveillance must believe that the activities to be authorised are necessary on one or more statutory grounds. The members of the Leadership Team, identified in the Council's Policy and Procedure, consider all applications for authorisation. The Authorising Officer must ensure that there is satisfactory reason for carrying out the

surveillance, the covert nature of the investigation is necessary, proper consideration has been given to collateral intrusion, and the proposed length and extent of the surveillance is proportionate to the information being sought. This involves balancing the seriousness of the intrusion into the privacy of the subject of the operation against the need for the activity in investigative and operational terms. Following legislative changes, in addition to the aforementioned, the Council is required to obtain judicial approval prior to using covert techniques and the Councils use of directed surveillance under RIPA will be limited to the investigation of crimes which attract a six month or more custodial sentence.

3.5 The usage of RIPA during the period September 2022 to December 2022 has been nil. No authorisations have been requested or granted.

4.0 Financial Implications

4.1 None arising directly from this report.

5.0 Corporate Implications

5.1 The Council must act in accordance with recent legislative changes regarding the authorisation process and the surveillance crime threshold.

6.0 Community Implications

- 6.1 Covert surveillance is carried out in a manner calculated to ensure that the person subject to the surveillance is unaware of it taking place. The Council carries out directed surveillance which is covert, not intrusive, is not carried out in an immediate response to events, and is undertaken for the purpose of a specific investigation or operation in a manner likely to obtain private information about an individual.
- 6.2 Section 8 of the application form asks the applicant to supply details of any potential collateral intrusion and to detail why the intrusion is unavoidable. The idea behind collateral intrusion is to identify who else, apart from the subject of the surveillance, can be affected by the nature of the surveillance. Any application for authorisation should include an assessment of the risk of the collateral intrusion and this should be taken into account by the Authorising Officer when considering proportionality. The Authorising Officer needs to know by those carrying out the surveillance if the investigation or operation would unexpectedly interfere with the privacy of individuals not covered by the authorisation. An Authorising Officer must be made aware of any particular sensitivities in the local community.

REPORT TO:	OVERVIEW AND SCRUTINY COMMITEE	AGENDA ITEM: 6
DATE OF MEETING:	4 JANUARY 2023	CATEGORY: (RECOMMENDED
REPORT FROM:	HEAD OF HOUSING	OPEN
MEMBERS' CONTACT POINT:	<u>paul.whittingham@southderbyshire.</u> gov.uk	DOC:
SUBJECT:	COUNCIL HOUSE LETTINGS AND VOID PROPERTIES	
WARD(S) AFFECTED:	ALL WHERE THE REPORT AFFECTS THE DISTRICT AS A WHOLE <u>OR</u> SPECIFIC WARDS	TERMS OF REFERENCE:

1.0 <u>Recommendations</u>

- 1.1 That the contents of the report and the Improvement Plan are noted by the committee.
- 1.2 That a progress report is brought back to the Housing and Community Services committee on 25th April 2023.

2.0 <u>Purpose of the Report</u>

- 2.1 To update the Committee on progress against the actions to improve performance that were presented to the Housing and Community Services Committee on 19th April 2022.
- 2.2 To inform the Committee of the details regarding the performance against the target for reletting Council homes that was recently reported to the Housing and Community Services Committee
- 2.3 To identify the next series of actions that are to be implemented to improve performance.

3.0 Executive Summary

- 3.1 The Corporate Performance Indicator for the average time to relet council homes has failed to achieve the target during the last financial year and has not improved during the year 2022/23.
- 3.2 A series of actions were proposed to the Housing and Community Services Committee on 19th April 2022. Progress has been made with these actions; however, a further detailed action plan has been prepared to deliver improvements to performance.

4.0 Detail

4.1 The report to Housing and Community Services committee on 19/4/2022 identified a series of actions aimed at improving the performance of services to relet council homes. Progress against these actions is shown in the table below.

Actions Identified in April 2022	Target	Complete	Owner	Comment
Performance				
Measurable targets for Teams and Contractors for each stage of the relet process.	Sept 2022	Yes	Repairs Manager	Revised Process Includes Target Timescales
NOVUS Contract variation	July 2022	Yes	Head of housing	Now includes financial compensation
Property				
Follow on repairs after reletting rather than during void period	December 2022	Partial	Repairs Manager	Revision and clarification of the Lettable Standard for SDDC and contractors
Greater control of repairs that are chargeable to the tenant	March 2023	No	Repairs Manager	Improvement Project
Improve procedures for clearing utility meters	November 2022	Partial	Repairs Manager	Support service from British Gas identified. Debit card application accepted
Targeted decoration of properties	June 2022	Yes	Project Officers	Greater use of decoration vouchers
Information Technology				
Enhancing the use of the Lifespan Stock condition systems to update property safety information.	September 2022		Asset and Compliance Officer	Further work in progress to automate stock condition updates.
Staff Training in Orchard and Lifespan products	October 2022	Yes	Policy and Performance Officer	Further training needed to properly implement systems
Greater use of the Jigsaw system to identify demands and trends	January 2023 Page 6 c	Partial of 32	Housing Solutions and Support Manager	

Allocations				
Control of transfers to reduce tenancy terminations	February 2023	Partial	Tenancy Services Manager	New Transfer procedure in development.
Earlier advertising of vacant properties.	November 2022	Yes	Housing Solutions and Support Manager	
Streamlining Sign Up processes	February 2023	No	Tenancy Services Manager	"Secure Sign "electronic document system in process of being procured
Hard to Let Properties				
Early identification of Hard to Let Properties and alternative advertising strategies	January 2023	Yes	Housing Solutions and Support Manager	Wider advertising through Home swapped network for identified low demand properties
Possible Declassification of Sheltered Housing Stock	TBC	No	Internal Audit	Audit review of current classification of sheltered properties
Electrical				
Additional electrical contractor		Yes	Asset and Improvement Manager	Newey Contract Amended
EICR Protocol		Yes	Asset and Improvement Manager	Agreed with External Auditors
EICR Process		Yes	Asset and Compliance Officer	Linked to Lifespan
Electrical project officer recruitment Agency officer appointed Advertising complete Interviews arranged	1/12/22	Yes Yes No	Asset and Improvement Manager	No applicants for full time post, agency staff in place.

4.2 Electrical Works

In the Quarter 1 Performance Report presented to the Housing and Community Services Committee on the 18th August 2022, the completion and management of Electrical Installation Condition Reports (EICR) was identified as "The main reason for delays in reletting properties" The report also explained that The Council has asked its Electrical Safety Auditor to review the current electrical safety protocol in order to ensure that checks and certification are compliant with electrical regulation. The table above includes specific actions that were completed to address this, especially with regard to procuring additional contractor capacity to carry out these checks which are necessary at the start of the void period for every property. This has made an immediate impact with the prompt completion of twenty EICRS at the start of the void process.

4.3 Unfortunately, the Councils Project Officer (Electrical) also left within this period and the Council has not been able to find a permanent replacement having to rely on agency staff in their place. This post along the Project Officer (Heating), Project Officer (Building) have recently been regraded through the Job Evaluation Process. All three are currently vacant and were advertised with a closing date of 18th November. There were no applicants for the Electrical post and only one applicant suitable for interview for each of the other posts. A review of salaries in the public housing sector has shown that the salaries offered as part of this recruitment process lag behind those for similar positions offered by other providers. The outcome of this recruitment may inform a forthcoming policy regarding market supplements for Council salaries in posts with a statutory responsibility. The Head of Housing has also requested a proposal from Norse (a wholly owned subsidiary of Norfolk county Council) for the outsourcing of statutory property safety client functions.

4.4 Recruitment

- 4.5 Whilst good progress has been made in many of these areas, work has been hampered with the departure of the Repairs Manager and also the Interim Void Manager.
- 4.6 The recruitment process for the Repair Manager has been successful with a new Repairs Manager starting in post on 21/11/22.During the vacancy period a temporary/ interim manager was required to manage the day to day and void repairs process. Two appropriately skilled and qualified candidates were appointed. One candidate did not appear on his first day, the other joined the Council but left after one day having received a permanent offer of employment. The Policy and Research Officer has carried out some additional duties in the meantime to maintain the service. These have included some of the Repairs Manager tasks of day to day supervision of Project Officers carrying out inspections, the planning of surveys and handovers along with the development of the Orchard Void system and the training of staff in its operation.
- 4.7 As well as successful recruitment of the Repairs Manager, additional temporary resource to complete survey and inspection works has also been secured and commenced work on 23/11/22.

4.8 Property

The increased use of decoration vouchers rather than the full decoration of properties has been implemented in order to reduce relet time. Decoration of some properties is still necessary in some cases given their poor overall condition. During the current financial year forty five decoration vouchers have been issued compared with only two during the previous year, when the vast majority of properties were decorated throughout.

- 4.9 The current "lettable standard" will be clarified for Council staff and contractors before the end of December. The current standard is very basic and the cause of poor specification and works ordering. This in turn leads to additional works, variation orders and the need to re inspect properties. The provision of accurate survey and specification information is key to the prompt completion of works and letting of property. At present around 30% of properties require variation orders. This will be reduced to a 10% of completed properties.
- 4.10 Clearing "pre-paid" utility meter debt is still a major obstacle to the whole re let process. However, the Council's Finance team have supported the application for the use of a corporate debit card to clear meters at local retailers. The Repairs Manager has also now identified a more efficient solution for some meters through a service provided by British Gas, which is hoped to have in place soon. This will still require some meters to be cleared using credit or debit card. The additional temporary surveyor/inspector will be responsible for clearing meters as part of their duties, along with reviewing and reissuing existing surveys. Until this arrangement is in place all prepaid meters in properties need to be cleared and then "topped up "with credit by payment via credit card at local retailers.

4.11 Information Technology

As recommended in Earlier reports to the Audit Subcommittee, the Housing Team has re installed and reconfigured the Lifespan Asset Management system to improve the management of the electrical safety and certification process. It now holds electronic versions of all electrical certificates rather than the entirely paper based system that was in place previously. The system does need further development and further staff training before April 2023, this will also be required in order to meet the requirements of the new approach to Housing Regulation reported to the Housing and Community Services Committee on 28th January 2021.

- 4.12 Since April significant progress has been made with the use of the Orchard Void Management module. This has had to be designed, configured and implemented from "scratch" and then trained out across a number of teams involved in the management of empty properties. Whilst not totally complete this is a vast improvement on paper and spreadsheet-based systems that were in use previously, providing the capacity for auditable and measurable progress through the various stages of reletting property.
- 4.13 The Orchard Void Property module is now constructed so that the status of each property in the void process is clearly identified. The functionality of this module means that data can now be provided to measure performance against timescales at each stage of the process. This data data be now be being used to drive improvements in the

process and identify blockages. It provides accurate and up to date information which previously was only being partially collected on a number of diffuse spreadsheets which were not able to summarise or report on progress.

- 4.14 Members of this Committee may be aware that there are a number of outstanding recommendations from the Housing Repairs Audit that rely on the upgrading of the Orchard Repairs module generally. Specifically, these refer to the introduction of "mobile working" These recommendations will also impact on the management of the repair of void properties and provide the capacity for inspection and survey data to be captured electronically on site and linked directly to Schedule of Works orders. This will reduce the time taken to complete inspections and raise orders. It will also assist in managing the process so that orders are accurate with fewer variations.
- 4.15 The full mobile working system is being demonstrated to the staff team on 14th December 2022 with an outline timetable for completion in late 2023. In the meantime, an interim work around method for producing job tickets electronically is being trialled. The possibility of completing property survey documentation is being investigated with Orchard the current IT provider.

4.16 Allocations/Hard to Let Properties

- 4.17 The Jigsaw Housing Allocations /Choice Based Lettings system went live in January 2022. This provides the online advertising of properties in line with the Councils allocations policy.
- 4.18 The advertising of each individual vacant property is completed at the earliest opportunity – once an estimated date for completion of works is agreed. This will depend on the scope and scale of works required. The housing Solutions and support Team has identified other online vehicles for the advertising of eight current hard to let first and second floor "sheltered" flats which will be pursued further subject to compliance with the Councils Allocations Policy.
- 4.19 During this financial year 229 properties have been advertised for letting through the Councils Jigsaw, Choice Based Lettings system. 106 of these properties were with Housing Associations, 113 with the Council. There was an average of 27 bids for each property. Housing Association properties attracted an average of 37 bids per property with Council properties only receiving an average of 20 bids. Ten or less bids were received on 37 Council properties.
- 4.20 Of the Council properties 66 (58%) of properties advertised were flats which received an average of 13 bids. Of these 29 were sheltered flats,
- 4.21 In summary, council flats, (especially sheltered flats) which make up the majority of properties advertised are relatively more difficult to let than other social rented properties in the district.
- 4.22 This issue was identified in the report to Housing and Community Services Committee in April 2019, Internal Audit have agreed to review the current stock of "Sheltered Housing "to consider whether these properties especially those on the first and second floor are appropriate for this type of housing. The recommendations and responses arising from this review will form part of a report to the Audit Subcommittee.

4.23 Performance

The operation of the relet- repair process is managed through a weekly operational planning meeting between SDDC and Novus and daily contact to confirm progress. A weekly management is chaired by the Head of Housing. Overall performance is contained in a monthly contract report which is then reviewed at a monthly Contract meeting. During the first quarter of the year Novus returned 15 properties as being ready to let with no properties returned within target. A range of reasons for this performance were suggested: including delays in electrical certification, shortage of skilled labour/subcontractors, absence of key staff and the inaccuracy of SDDC survey and works order information.

During the second quarter completions increased with 33 properties being returned, three within target. The performance issue was escalated again via the Head of Housing to the Regional Director of Novus, who were invited to attend Overview and Scrutiny Committee in October 2022. Their presentation to this meeting confirmed their commitment to increase completions to 8 per week in order to resolve the backlog of properties and assist in reducing overall relet times. Whilst progress has been made on improving IT, processes and procedures, clearing meters etc, this has not yet been translated into improved performance of Average Relet time for properties already in the backlog. These changes and the proposed actions will make an impact on ensuring these properties are let and also that newly arising properties are let more quickly

4.24 The position at 14/11/22 compared with the position reported to Housing and Community Services Committee in April 2022 is shown in the table below, it is important to note that Since 1/4/2022 a further 211 tenancies have been terminated by outgoing tenants. 20 of these are under notice and not vacant. 83 Properties have been relet.

Relet stage	March 2021	March 2022	Nov 2022	Dec 6 th 2022
Awaiting	8	12	19	44
Meter				
check/survey				
Contractor	54	19	54	42
Final check	20	19	13	3
Ready to let	29	32	12	15
total	111	82	98	104

The table confirms that from April to November 2022 the number of properties being processed towards reletting has not kept pace with new terminations nor has it made sufficient progress with dealing with properties in the backlog.

NOVUS acknowledged in their presentation to Overview and Scrutiny Committee on 12th October 2022 the challenges that they had faced with regard to delivering EICR and works to void properties and confirmed their commitment to improve the position in both areas along with the actions in place to deliver this.

4.25 The outline target of 8 completions per week included in the improvement plan had already been discussed with NOVUS and was acknowledged in their presentation to the Committee.

4.26 The reconfigured Orchard system now gives the Council a more robust means to monitor performance at each stage of the relet process. The Housing Team have been able to provide data that illustrates the performance of the repair part of the process. The table below shows the number of properties returned by NOVUS to the Council in Quarter 2 and also so far in Quarter 3 of this financial year.

	Quarter 2	%	Quarter 3	%
Repair Time	Number of Properties		Number of properties	
Less than 30 Days	3	9%	8	28%
30-60 Days	2	7%	5	17%
61-90 Days	12	36%	3	10%
90-291 days	16	48%	13	45%
Total	33	100%	29	100%

- 4.27 It is clear that the return rate for properties has picked up so far during Quarter 3. It is also clear that a greater proportion of properties are being returned on target. Whilst this is positive the return rate is not yet at the 8 properties per week agreed by NOVUS.
- 4.28 As described above, the analysis of the data provided thus far shows that around 30% of properties require additional works which must be authorised through a Variation order. This increased both the works time and also the time take to re inspect and certify property.
- 4.29 A revised Improvement Plan has been prepared to address performance issues with all contractors involved in the void process and also with Council teams that are involved. The Improvement Plan is below. This will be managed by the Head of Housing; It includes specific actions for the new repairs Manager and the additional surveyor resource in order to make immediate progress to improve performance.

4.30 Targets and assumptions

Assuming that terminations continue at the same rate of an average of 6 per week, then a further 108 tenancies can be expected to terminate by the end of the financial year. Whilst there are on average 6 terminations per week over the year, this has slowed in the last few weeks with only 2 tenancies expected to terminate on the last two Mondays in December.

To achieve a target of there being no properties being vacant for more than 8 weeks (56) calendar days by 1/4/23 this would require the current voids (98) plus a further 60 properties to be let at around 8 lettings per week. (This includes an assumption that properties will not be let on 26th December or 2nd January.

Letting the current /backlog of voids at the same rate with the expected 60 new voids a target of 30 days will reduce void relet time to 82.59 days by the end of the financial year. Letting the void properties that are expected to arise in February and March under the new processes will reduce relet times to 56 Days within April with a target to achieve a relet time of 30 days before the end of the first quarter on 2023/24.

SDDCVoid/ReletImprovementPlan2022/23Targets:•No Property (otherthan redevelopment /hardto let properties) vacant forlonger than 8 weeks @1/4/23•Average time ofcurrent voids to be 56days by 1/4/23	Target	Complete	Owner	Comment

Managing the Plan

- 4.31 As included in the table above, a works plan has been provided by NOVUS and is attached at Appendix B. The first phase of this plan details the duration of works on vacant properties up to the end of January 2023. There are a further 23 properties which will be planned once the Council has completed revised surveys and provided accurate specifications for the works. This is scheduled to be complete by 16/12/22.
- 4.32 It is expected that within the 23 properties awaiting survey will be a number of minor works voids that will be "fast tracked" for completion to add to the weekly completions identified in the plan.
- 4.33 Weekly planning meetings for void properties have been in place for some time with "front line" Council and NOVUS colleagues in attendance. The wider contractual issues are covered through the existing "whole house" contract meetings chaired by the Asset and Improvement Manager.
 - 4.34 The Head of Housing will now also chair an additional meeting of SDDC and NOVUS management colleagues to review progress towards the targets identified.
- 4.35 In the short term the additional surveyor resource has been employed to update and correct all the surveys for existing vacant properties. This will remove the potential for delays due additional works or variation orders.
- 4.36 NOVUS have also confirmed their current level of resource employed to deliver the contents of the plan.
- 4.37 As a further contingency measure. The Councils procurement advisors have been asked to draft an "expression of interest" document to issue to contractors in the Efficiency East Midlands (EEM) Framework to ascertain whether there is any interest

or capacity in completing void property works. Earlier informal enquiries did not receive a positive response.

5.0 Financial Implications

- 5.1 The Financial Implications section of the report to Finance & Management Committee 24th November 2022. The reported stated that rental income is lower in year due to the average level of voids which is currently around 100 properties per month, together with the time being taken to relet voids, which on average currently stands at 183 days. The loss forecast for 2022/23 is £417k.
- 5.2 The assumptions applied to the calculations of rental income for the 2023/24 budget is for the level of voids to remain at 3.41% (100 voids) in 2023/24 reducing to 2.39% (70 voids) in 2024/25 and levelling back to 1.71% (50 voids) thereafter.
- 5.3 The effect of using these assumptions on the rental income budget for 2023/24 vary the rental income receivable from £13,065m at 3.41% (100), £13,204 at 2.39% (70) and £13,296m at 1.71% (50) this illustrates the impact on income depending on the level of voids.

6.0 <u>Corporate Implications</u>

Employment Implications

6.1 There are no direct employment implications contained within this report

Legal Implications

6.2 There are no direct Legal implications contained within this report.

Corporate Plan Implications

6.3 The contents of this report directly contribute to the aims within the Corporate Plan to: Support and safeguarding the most vulnerable. With partners encourage independent living and keep residents healthy and happy in their homes. Promote health and wellbeing across the district. Improve the condition of housing stock and public buildings.

Risk Impact

- 6.4 A number of Risks have been identified that could impact on the delivery of this plan.
 - A higher number of terminations than expected.
 - Loss of skilled contractor labour
 - Loss of Skilled SDDC supervisory colleagues (electrical /gas Project officers)
 - Harder to let properties becoming vacant. Around 20% of vacant properties are consistently first and second floor sheltered flats with low demand.

7.0 Community Impact

Consultation

7.1 The process for reletting Council properties will be on an agenda for the Tenants Voice Group meeting in early 2023.

Equality and Diversity Impact

7.2 There is direct Equality and Diversity impact contained within this report.

Social Value Impact

7.3

Environmental Sustainability

7.4 There are no direct environmental sustainability impacts within this report.

8.0 Conclusions

- 8.1 Whilst progress has been made with implementing new operating and monitoring systems for repairs this has only made a modest impact on repairs performance.
- 8.2 An improvement plan is necessary to deliver the much needs performance improvements.

9.0 Background Papers

REPORT TO:	OVERVIEW AND SCRUTINY COMMITTEE	AGENDA ITEM: 7
DATE OF MEETING:	4 JANUARY 2023	CATEGORY:
MEETING.		RECOMMENDED
REPORT FROM: MEMBERS'	STRATEGIC DIRECTOR (CORPORATE RESOURCES)	OPEN
CONTACT POINT:	KEVIN STACKHOUSE Kevin.stackhouse@southderbyshire.gov.uk	DOC: h/KS/budgets/budet2324/review of agency costs
SUBJECT:	VACANT POSTS AND AGENCY COSTS	
WARD(S) AFFECTED:	ALL	TERMS OF REFERENCE: FM 08

1.0 <u>Recommendations</u>

1.1 That the analysis of vacant posts and agency costs as detailed in the report is considered and any recommendations referred back to Finance and Management Committee.

2.0 <u>Purpose of the Report</u>

2.1 As part of the Committee's Work Programme for 2022/23, the report provides an overview of the situation regarding vacant posts at the Council, together with the cost of agency staff to cover vacant posts.

3.0 Background

- 3.1 In recent years, the Council has had difficulty in recruiting into posts across a range of services. Over the past year, this has become more acute, where recruitment and retention across local government has been an issue.
- 3.2 This has been more significant in specific services such as Planning, Housing and Waste Collection, where a national shortage of staff is being experienced. This has also led to the rates of pay in other sectors increasing way in excess of the Council's pay structure.
- 3.3 Consequently, the Council is becoming more reliant on employing Agency staff to temporary fill vacant posts and to keep services operational. Where posts can be temporarily covered internally, including overtime provided by other staff, this is the first option.
- 3.4 However, this is not always practical due to the specialist and technical nature of many roles, or there is simply no capacity due to the small size of individual teams, etc.
- 3.5 The Council's Base Budget provides for a 100% full Establishment each year and does not factor in a vacancy or turnover rate. Although vacant posts produce savings against the Budget, agency staff are generally more expensive where day or hourly rates reflect the

temporary nature of employment and market conditions. This additional cost can more than offset the reduction in the salary budget.

3.6 Salary savings and costs are reported to the Finance and Management Committee on a quarterly basis as part of budget monitoring during the financial year. That Committee have become increasingly concerned about the level of vacancies which have impacted on the delivery of some services, in addition to the growing cost of employing agency staff.

4.0 Detail

- 4.1 **Appendix 1** provides a detailed analysis of vacant posts and agency staff used between 1 April and 30 September 2022. The analysis also shows the number of vacancies filled across Council services in the same period.
- 4.2 The following headlines are worth noting:
 - 46 vacancies have been filled in the period, which is 12% of all posts on the Establishment.
 - There were 70 vacant posts as at 30 September 2022, which is 18% of all posts on the Establishment.
 - Of these 70 posts, 57 (80%) were being covered by agency staff.
 - Overall, the cost of agency staff was £105,000 less than the salary savings.
 - However, in individual services, the picture is more skewed. The cost of agency staff in Waste Collection, Planning and Housing services is far in excess of salary savings.
 - The reverse exists in many back-office, professional and regulatory services where vacant posts are less frequent and are covered internally or potentially, not at all with a consequential effect on service provision.
- 4.3 **Appendix 2** provides a list of the 70 vacant posts as at 30 September 2022.
- 4.4 It should be noted that clearly this was the position as at 30 September 2022 and will have changed given recruitment processes on-going in many services and the volatility of current labour markets.
- 4.5 The next analysis will show the situation up to 31 December 2022, although this report does show the overall trend and highlights the issues faced by the Council.

5.0 Financial Implications

5.1 As detailed in the report.

6.0 Corporate Implications

Employment Implications

6.1 Given the current issues, recruitment and retention initiatives are being reviewed and reports regarding market supplements for example, are planned for forthcoming Finance and Page 25 of 32

Management Committees.

6.2 In the meantime, recent restructure reports in Customer Services and Planning, have implemented trainee/graduation schemes, together with the employment of Modern Apprenticeships, to sustain staff retention in the longer-term.

Legal Implications

6.3 None directly

Corporate Plan Implications

6.4 None directly

Risk Impact

6.5 Capacity and Resilience is a risk monitored in the Council's Corporate Risk Register as it has the potential to adversely impact service provision.

7.0 Community Impact

Consultation

7.1 None

Equality and Diversity Impact

7.2 None directly

Social Value Impact

7.3 None directly

Environmental Sustainability

7.4 None directly

8.0 Background Papers

8.1 None
