DC/127. **DELEGATION AGREEMENT FOR DEVELOPMENT CONTROL**

The Committee received a report seeking corrections in the Delegation Agreement to remove ambiguities that had become apparent since the Agreement was last revised. The Delegation Agreement was reviewed bi-annually and was previously considered approximately twelve months beforehand, when it was modified to accommodate the Government's target of 90% of cases being dealt with under delegated powers. It had become apparent that an ambiguity existed in the wording of the authority given to Officers to determine cases. The definition and distinction relating to minor applications was not clear and whether the definition of 'significant controversy' should apply or not in minor cases was also difficult to make. As a result, it was unclear whether to deal with certain cases or refer them to the Committee for determination.

The anomalies could be resolved by substituting the word 'major' for 'other' in paragraph 10(iii) under the heading 'Planning Matters' and also for 'non-minor' in paragraph 3 under 'Matters not delegated'. The definitions of 'major' and 'minor' would need to be clarified under that heading. Major applications were defined in the General Procedure Order 1995 as those involving development of more than ten dwellings or on sites of more than 0.5 hectare, or buildings of more than 1,000 square metres or on sites of more than one hectare.

To make more sense, the words 'Planning Policy' should also be included after the word 'established' in paragraph 3. The words 'planning applications' in the sentence under the heading 'The Framework' also needed to be clarified to achieve consistency. In the context of the intended interpretation of the last revision, this should refer to 'major planning applications'.

The effect of these clarifications would enable the Committee to continue to deal with those applications that fell outside of established planning policy or supplementary guidance, as well as all major applications where there was significant controversy. Effectively, this was how Officers had proceeded during the previous year.

Care had been taken to avoid issues being determined by Officers where there was any prospect of problems arising as a consequence. This often resulted in taking more care to refer matters to the Committee than strictly required, but creating less work than may subsequently arise from any investigation.

The Delegation Agreement had operated as intended in allowing the required 90% level of cases to be determined by Officers, which it did not achieve prior to the last review. No incident of failure to consider matters properly had occurred, causing any complaint from Members, parish councils or the general public. By removing any ambiguity, the Delegation Agreement would operate more efficiently and effectively and avoid complaints arising from such ambiguities.

RESOLVED:-

That the Delegation Agreement be amended, as outlined in the report.

DC/128. **REPORT OF THE PLANNING SERVICES MANAGER**

The Planning Services Manager submitted reports for consideration and determination by the Committee and presented oral reports to the Meeting to update them as necessary. Consideration was then given thereto and decisions were reached as indicated.
