Supporting the Delivery of the LAA Targets

Where possible actions in each of the new Theme Group Action Plan (to be developed to start from April 2009) will be linked to one of the 35 Derbyshire Local Area Agreement indicators. This will help show how we are contributing to the countywide priorities. Progress will be made to ensure that our priorities that are not in the 35 LAA targets will be measured by other local indicators, primarily from the newly established 198 National Indicators. This information will be available to partners and the Derbyshire Partnership Forum, to show where the activity also links into the countywide service delivery.

Recommendations

The Board agree to note the final indicators and incorporate these in the emerging Theme Group Action Plans to start from April 2009.
