Another Member of the Overview and Scrutiny Committee was not aware that the Committee had completed its report, but the position was clarified that the Scrutiny Committee had submitted its response through the unconfirmed Minutes of the Meetings held on 23rd January and 13th February 2008.

FM/112. AUDIT SUB-COMMITTEE

The Minutes of the Audit Sub-Committee Meeting held on 12th December 2007 had been submitted. A Member of that Sub-Committee explained why he considered this to be an inaccurate account of the proceedings. Two other Members of the Sub-Committee shared this view and clarification was sought on this matter.

A comprehensive report was submitted detailing performance levels and achievements for the nine-month period ending 31st December 2007, on the Committee's contribution to the Council's Performance Management Framework.

A Member referred to a particular Corporate Plan target “at risk” of failure, “introducing a fair and streamlined funding regime for parish councils, which created a level playing field with non-parished areas”. The Member sought a position update, which was duly provided.

RESOLVED:-

- (1) That the Committee notes the key achievements and performance for the 9-month period ending 31st December 2007 within its areas of responsibility.***
- (2) That where performance levels have failed to achieve the specified target, the Committee agrees the proposed remedial measures submitted.***

FM/114. **CORPORATE PLAN – FEEDBACK FROM CONSULTATION**

It was reported that the Corporate Plan was an integral part of the Council’s performance management framework and its actions set out how the Council would deliver key priorities, together with key measures of success.

There were six themes in the Plan, which had been the subject of extensive consultation with local people and groups. The fundamental change for 2007/08 was the inclusion of value for money throughout the Plan. It was considered that the current themes should remain in place and that a fundamental review of the Plan be undertaken in 2010.

Consultation had been undertaken with a range of stakeholders. The complete consultation results, comments and analysis had been placed on the Council’s intranet and headline figures were reported in a series of tables for each theme.

A Member was disappointed at the level of response to this consultation. Officers planned to refresh the Citizen’s Panel in particular to improve responses from young people. Another Member felt this was an excellent paper and a useful working tool for the future. The Officers involved were congratulated.

RESOLVED:-

The Corporate Plan and Priorities for Action 2008/11, as outlined in Annexe SMB1 to the Signed Minute Book be recommended to Council for approval on 28th February 2008.

FM/115. **BUDGET AND FINANCIAL MONITORING 2007/08**

The latest budget and financial monitoring report was presented for the Committee’s consideration. This provided information on the General Fund Revenue Account, the Housing Revenue Account, Capital expenditure and financing, together with cash flow and an analysis of short-term investments/bank deposits.

In response to a question, Officers provided further information about the vacant post in the Environmental Health division. The budget variances were

noted and there was delight at the report recommendation to provide additional resources for Disabled Facilities Grants and Energy Efficiency Improvements.

RESOLVED:-

FM/116. **TREASURY MANAGEMENT STRATEGY AND PRUDENTIAL INDICATORS 2008/09**

A report was submitted to outline the Council's prudential indicators for the period 2008/09 to 2010/11. This fulfilled three key reports required by the Local Government Act 2003. Background was provided on the prudential system for capital finance, explaining its main aims and how it was measured through a set of prudential indicators. The relevant indicators required under regulations were summarised in a series of tables. These concerned Capital Expenditure, the Capital Financing Requirement and the Operational Boundary and Authorised Limit. Further tables reported on the incremental impact of capital investment decisions on the band D Council Tax and housing rent levels and on investments.

RESOLVED:-

- (1) That the Prudential Indicators and Limits for 2008/09 to 2010/11, contained within the report be recommended for approval by the Council at its Meeting on 3rd March 2008.***
- (2) That the Treasury Management Strategy for 2008/09 be approved.***
- (3) That the Investment Strategy for 2008/09, including the associated lending list and policy be approved.***

FM/117. **FINAL BUDGET PROPOSALS 2008/09 AND MEDIUM TERM FINANCIAL PLAN TO 2013**

At its meeting on 17th January 2008, the medium-term financial position was considered. A report was submitted to look at the proposals following a period of scrutiny and consultation.

It provided information on the General Fund budget and the medium-term financial projection. This showed a reserve balance of approximately £882,000 by March 2013. Although this was below the recommended

minimum level of £1million, it was not considered critical at this stage, as it was possible to achieve the minimum level of reserves over the medium term. Members were also reminded of the approved service developments and the Council Tax projection and tax base assumed.

Next, the report examined the Housing Revenue Account (HRA). It was summarised in an Appendix to the report and the overall financial forecast for the HRA was now much tighter than previously projected. The current level of reserves helped to sustain the HRA in the medium-term. However, from 2010/11, spending would exceed income and therefore in the longer-term, the financial position was not sustainable, based on the latest projections.

The report also covered capital investment and financing together with a section on overall analysis and risk was considered. Finally, the Committee received the Section 25 report in accordance with the Local Government Act 2003.

Several Members spoke to this item. Further information was sought about potential future land disposals, which could not be provided at this time, due to contractual confidentiality. However, an outline was provided on how such land sales were reported to Members. Reference was made to the longer-term position on the HRA. There was a need for this Committee and the Overview and Scrutiny Committee to keep this issue under constant review.

The support from Officers on the budget process was recognised together with the need for prudence. A 2.5% Council Tax increase was proposed, which was below inflation and the RPI. The percentage precepts from the Police and the County Council were reported and details of the precept from the Fire Authority were awaited.

RESOLVED:-

- (1) That budgeted net General Fund Revenue Expenditure totalling £12,897,815 for 2007/08 and £12,115,502 for 2008/09 be recommended for approval by the Council at its Meeting on 3rd March 2008.***
- (2) That a Council Tax increase of 2.5% and a Band D rate of £144.42 for 2008/09 be recommended for approval by the Council at its Meeting on 3rd March 2008.***
- (3) That the projected level of General Fund Revenue Reserves totalling £882,798 as at 31st March 2013 is approved.***
- (4) That the latest 10-year financial projection on the Housing Revenue Account to 2018 be approved.***
- (5) That a continuing programme of efficiency reviews be continued across all services in order to generate cash releasing, value for money gains over the life of the current Medium-Term Financial Plan.***

- (6) That the updated 5-year Capital Investment and Financing Plan to 2013 be approved.**
- (8) That the report of the Council's Section 151 (Chief Finance) Officer under Section 25 of the Local Government Act 2003 be noted.**

FM/118. **NATIONAL CONCESSIONARY BUS TRAVEL SCHEME**

A report was submitted on the new concessionary bus travel scheme. It covered eligibility, those categories of person who would no longer qualify under the national scheme and it was noted that certain concessions would no longer be available under the scheme. However, the majority of persons affected by the changes were likely to be entitled to a new national pass.

The Committee was asked to consider the charge for replacement of lost passes. Information was provided on the current charge levied and the cost of re-issuing the new 'smart card' was £5. The financial implications were reported. Under the new arrangements, district councils would be responsible for the cost of the scheme and would receive all the specific RSG for this responsibility.

RESOLVED:-

- (1) That the Committee notes the updated information provided.**
- (2) That the Council approves amendments to the existing Derbyshire Concessionary Travel Scheme for elderly and disabled people from 1st April 2008, in order that the scheme meets the statutory minimum concessionary travel requirements set out by the Government and that all local concessions are discontinued from that date.**
- (3) That the cost of replacing a pass under the national scheme from 1st April 2008 be increased from £1 to £5 per pass, to reflect the increased cost of the "smart card" now specified by the Government and that this fee be waived if a theft and a crime number associated with that theft is produced.**

FM/119. **INVESTMENT AND RESOURCE STRATEGY FOR AFFORDABLE HOUSING**

Further to Minute No. HCS/63 of 7th February 2008, the Finance and Management Committee received a detailed report on this issue. The Committee was reminded of Audit Commission guidance, previous Committee deliberations and the position on land holdings. The report distinguished between the Housing Revenue Account (HRA) and General Fund assets, particularly in terms of the proportion of receipts that could be re-used. In order to maximise the income potential from the sale of housing assets, the Council would need to commit those resources to affordable housing. The remainder of the report focused on affordable housing investment priorities. These concerned the sheltered housing vision, rural affordable housing and investment in private sector housing, in order to generate properties to meet housing need, at affordable levels.

In response to a question, Officers provided further information on the appended summary of housing development need in rural communities. In particular, reference was made to the population threshold, which was why neither Hilton nor Melbourne had been included on this schedule.

RESOLVED:-

- (1) That the Committee approves the strategy outlined in the report as recommended by the Housing and Community Services Committee, at it's Meeting on 7th February 2008.***
- (2) That the Committee reaffirms the Sheltered Housing Vision and Standards as an affordable housing and regeneration investment priority, along with the facilitation and provision of new rural affordable housing and a leasing scheme designed to bring empty private sector properties back into use for people in need at affordable rents.***
- (3) That the Committee agrees that where individual specific projects are identified for funding under the investment priorities listed at resolution (2) above, they be approved by the Council's external auditor, to ensure compliance with the Government's criteria relating to affordable housing and regeneration reinvestment.***
