EL/21 **ETWALL POOL SINKING FUND DRAW DOWN**

The Head of Cultural and Community Services presented the report to the Committee highlighting that the commissioned work carried out was detailed in table 1 of the report. Requests for draw down funding included an emergency generator which was used to keep the Centre open during the replacement of an electrical cable on the site and window etching to the pool hall screening. Planned maintenance and technical works totalled £130,000.00.

Members asked for further information about the replacement generator and if it was used by the school at the time of the power cut-off and requested that details of the Sink Fund expenditure be discussed regularly throughout the year at the

Committee to enable the Members to review and track the fund activity and to manage the process correctly.

The Representative of the Governor of the School confirmed that the generator had been sited in the Car Park of the school and that it had been used to keep the Leisure Centre open during the three day period whilst repairs had been carried out to an electrical cable on the site.
