SUBJECT:	APPROVAL OF THE INFRASTRUCTURE FUNDING STATEMENT 2021-22	
WARD(S) AFFECTED:	ALL	TERMS OF REFERENCE: EDS

1. Recommendations

1.1 To approve the Infrastructure Funding Statement (IFS) for the 2021-22 financial year.

2. Purpose of the Report

2.1 To report to the Committee the contents of the IFS which is included in Appendix 1 to this report.

2.2 This statement must provide a summary of the contributions the Council has secured through Section 106 (S106) legal agreements from new developments for off-site infrastructure provision and affordable housing.

2.3 In brief, the IFS provides:

- An overview of S106 obligations
- S106 contributions committed for future years
- S106 contributions paid to the Council in the 2021/22 monitoring period
- Any S106 contributions which have not been allocated by the Authority
- Projects successfully delivered throughout the District using S106 contributions within the monitoring period.

3. Detail

3.1 The IFS is required to report contributions in relation to Community Infrastructure Levy (CIL) and S106. As South Derbyshire District Council does not have a CIL, the obligations reported are all under S106 requirements.

- £3,411,162.83 is the estimated financial value of S106 agreements that have been entered into during the reporting period; the exact figure will only be confirmed once reserved matters applications are approved. This is an increase of £2,010,942.45 on the previous monitoring period.
- £6,029,589.09 of S106 contributions were collected of which just over 60% went to the District Council with the remainder due to be transferred to other public authorities. This is an increase of £1,771,752.79 on the previous year. The infrastructure types that these contributions are to be spent on are set out in Tables 3 and 4 of the IFS.
- The total monies spent during the financial year was £2,678,370.50, of which £1,626,581.69 was transferred to external bodies.

4. Financial Implications

- 4.1 None resulting from publishing the IFS. The Council needs to use S106 monies within the specified timescales (usually five years) of the money being received, otherwise it must be paid back to the developer with interest. It is possible to specify time periods of longer than five years with agreement between the parties.

5. Corporate Implications

 - to influence the improvement of infrastructure to meet the demands of growth (Our Future).
 - to enable the delivery of housing across all tenures to meet Local Plan targets (Our Future).
