This is in accordance with the requirements of the Local Government Act 2003, updated for provisions contained in the Localism Act 2011. Three main areas covered are:
 - The CIPFA Prudential Code (2017) which requires the reporting of the Indicators for Capital Finance in Local Authorities.
 - The Treasury Strategy in accordance with the CIPFA Code of Practice on Treasury Management.
 - The Investment Strategy in accordance with Central Government guidance.

3.0 Summary

The Prudential System for Capital Finance

- 3.1 The Council is required to manage its treasury and capital expenditure activities under a National Code. The main aims of the National Prudential System are to ensure that:
 - Capital investment plans of local authorities are affordable and sustainable.

- Treasury management decisions are taken in accordance with best professional practice.
- Financial planning and asset management are integrated into the Council's overall corporate planning arrangements.

3.2 Treasury operations are measured within a set of prudential indicators. The main purpose of these indicators is to provide the limits and benchmarks to control the level of capital expenditure, borrowing and investment. The Council is expected to operate comfortably within these limits.

3.3 The Prudential System allows councils the freedom to borrow on a prudential basis. Any new borrowing has to be accommodated within any maximum debt limits or caps set by Central Government and the Council has to demonstrate that it can afford to service and repay the debt within its financial plans.

The Treasury Management Strategy

3.4 The Strategy aims to provide transparency for treasury decisions including the use of counterparties, together with assessing how risk is managed on a day- to-day basis.
