3.0 Background

3.1 South Derbyshire District Council is committed to providing a cost effective, efficient repairs and maintenance service whilst meeting all its legal and contractual obligations as a responsible landlord.

3.2 It is important that any repair completed day to day or through the voids process that is the responsibility of the tenant should be recharged as appropriate.

3.3 By introducing this policy, we aim to define a clear standard by which staff can identify a rechargeable repair, apply our policy clearly, consistently and fairly with customers and adopt a proactive approach with customers in advising them of their responsibilities as tenants.

3.4 The aim of this policy is also to promote a responsible attitude by tenants towards their property by ensuring that costs are pursued from those who are negligent or deliberately cause damage.

4.0 The proposed Rechargeable Repairs Policy

4.1 The objectives of the proposed Rechargeable Repairs Policy are:

- To recover the cost of rechargeable repairs from current and former tenants.
- To maximise income by the recovery of debts owed relating to rechargeable repairs and thus demonstrate value for money within the Repairs Service.
- To promote an equitable service by ensuring that tenants who incur charges are held responsible.

4.2 The proposed new policy is attached at Appendix 1. A summary of the proposed changes is at Appendix 2
